The recommendation of Purchasing, Fleet Management, and the Regional Forensic Science Center (RFSC), is to **accept the low bid from Whiteside of St. Blairsville, Inc. in the amount of \$44,930.00.**

This vehicle is used by Medical Investigators to respond to crime scenes and must be available for use 24/7. The mission of the RFSC states, "Death Investigation and Forensic Autopsy services are conducted in a compassionate and objective manner to achieve accurate certification of cause and manner of death." If the RFSC's Medical Investigators are unable to safely travel to a crime scene they will be unable to conduct a comprehensive death investigation.

This vehicle is large enough to store investigative equipment and PPE supplies. Hatchback styles (SUV or crossover) work best as supplies can be easily stored and accessed with limited bending and/or lifting. The seats are leather so that they can be thoroughly cleaned and decontaminated.
