## Overview

Noxious Weeds controls and eradicates noxious weeds in Sedgwick County, as required by K.S.A. 2-13. Control of noxious weeds on County property and right-of-ways is the Department's primary responsibility. The Department also operates a vegetation management program, suppressing perennial grasses and undesirable vegetation growing on shoulders and ditches. Each staff member holds a Commercial Applicator license from the Kansas Department of Agriculture, enforces State noxious weed laws, and helps citizens fulfill their responsibilities through education on effective techniques and products. A variety of equipment, including truck and all-terrain vehicle (ATV) mounted spray units, is used for efficient and environmentally responsible treatment of infestations.

## Strategic Goals:

- Increase property owners' voluntary compliance with State laws related to noxious weeds
- Where voluntary compliance control cannot be achieved, ensure that infected privately owned sites received direct treatment for noxious weeds
- Maintain partnerships with public agencies to ensure that right-of-ways and public properties are free of noxious weeds

## Highlights

- Inspected and treated as needed over 460 properties with musk thistle, over 50 properties with sericea lespedeza, and properties with other noxious weeds upon request
- Seeded several Public Works projects including ditches that were cleaned, widened, and regraded in several areas of the county

# Accomplishments and Strategic Results

## Accomplishments

The Noxious Weeds Department puts much thought into the purchase of herbicides and equipment each year as the Department reviews existing programs to evaluate the need, desired results, and costs involved. Noxious Weeds also works to improve efficiencies and mitigate environmental impact by constantly looking at potential application techniques, improved equipment, and materials that work better, faster, are safe to the environment, and more cost effective.

The Noxious Weeds Department also provides vegetation management for Public Works projects and roadways. This includes planting and treatment after road and bridge project completion to maximize a weed free environment; planting native grasses along revitalized stream banks to help control erosion; and mowing, treatment, and planting along County maintained bike paths to ensure public safety and enjoyment.

## Strategic Results

One of Noxious Weeds' strategic goals was to complete inspections and treatments on 75.0 percent of property owned by the Kansas Department of Transportation (KDOT). In 2022, the Department completed inspections and treatments on 2,200 acres of property, or 99.0 percent of the contracted amount.

Another strategic goal was to complete inspections and treat, as needed, 75.0 percent of County-owned property and right-of-ways for noxious weeds. In 2022, the Department inspected and treated, as needed, 2,775 of 3,260 acres, or 85.1 percent.

## Significant Budget Adjustments

Significant adjustments to Noxious Weeds' 2024 Recommended Budget include a decrease in interfund transfers due to moving the Noxious Weeds Fund balance to the General Fund (\$82,008) and a decrease in contractals due to the final payment of administrative fees from the Noxious Weeds Fund (\$23,530).
