I. **About this Document**

This document is a Request for Proposal. It differs from a Request for Bid or Quotation in that the county is seeking a solution, as described on the cover page and in the following Background Information section, not a bid or quotation meeting firm specifications for the lowest price. As such, the lowest price proposed will not guarantee an award recommendation. As defined in Charter Resolution No. 68, Competitive Sealed Proposals will be evaluated based upon criteria formulated around the most important features of the product(s) and/or service(s), of which quality, testing, references, service, availability or capability, may be overriding factors, and price may not be determinative in the issuance of a contract or award. The proposal evaluation criteria should be viewed as standards that measure how well a vendor’s approach meets the desired requirements and needs of the county. Criteria that will be used and considered in evaluation for award are set forth in this document. The county will thoroughly review all proposals received. The county will also utilize its best judgment when determining whether to schedule a pre-proposal conference, before proposals are accepted, or meetings with vendors, after receipt of all proposals. A Purchase Order/Contract will be awarded to a qualified vendor submitting the best proposal. **Sedgwick County reserves the right to select, and subsequently recommend for award, the proposed service(s) and/or product(s) which best meets its required needs, quality levels and budget constraints.**

The nature of this work is for a public entity and will require the expenditure of public funds and/or use of public facilities, therefore the successful proposer will understand that portions (potentially all) of their proposal may become public record at any time after receipt of proposals. Proposal responses, purchase orders and final contracts are subject to public disclosure after award. All confidential or proprietary information should be clearly denoted in proposal responses and responders should understand this information will be considered prior to release, however no guarantee is made that information will be withheld from public view.

II. **Background**

Sedgwick County, located in south-central Kansas, is one of the most populous of Kansas’ 105 counties. It is the sixteenth largest in area, with 1,008 square miles, and reportedly has the second highest per capita wealth among Kansas’ counties. Organizationally, the county is a Commission/Manager entity, employs about 2,500 persons, and hosts or provides a full range of municipal services, e.g. – public safety, public works, criminal justice, recreation, entertainment, cultural, human/social, and education.

Sedgwick County has a total population of 523,828 as of 2021. A majority of this population (395,699) live in Wichita, the largest city in Kansas. The Sedgwick County Health Department (SCHD) serves all within the county, providing services related to immunizations, family planning, disease investigation, data analysis, and supporting pregnant women and those with young children, among other services.

Sedgwick County opioid deaths have increased over time. Local data shows an increase in opioid-associated deaths from 28 in 2018 to 90 in 2020. Drug-associated deaths have increased from 28 deaths in 2000 to 153 deaths in 2020. County resident-associated deaths are most closely tied to opioids. Opioid-related emergency room visits in Sedgwick County amounted to almost twice as much as the state of Kansas as a whole in 2021.

Overdose affects individuals, families, and communities, and there is an urgent need to support overdose prevention at the local level. SCHD has been awarded the Overdose Data to Action: Limiting Overdose through Collaborative Actions in Localities (OD2A: LOCAL) (OD2A) federal cooperative agreement. This funding supports jurisdictions in collecting high quality, comprehensive, and timely data on nonfatal and fatal overdoses and in using those data to inform prevention and response efforts. OD2A focuses on understanding and tracking the complex and changing nature of the drug overdose epidemic and highlights the need for seamless integration of data into prevention strategies. OD2A funding focuses on opioids, stimulants, and polysubstance use involving opioids and/or stimulants. OD2A funds collaborative efforts on linkage to care, training of medical providers and the community, harm reduction, and increased data monitoring.

Some OD2A activities require the SCHD to contract with other organizations for the duration of the grant period which begins September 1, 2023 and ends August 31, 2028. Funding is provided by the Centers for Disease Control and Prevention (CDC) yearly as grant deliverables are met and funding is available.
III. **Project Objectives**

Sedgwick County, Kansas (hereinafter referred to as “county”) is seeking a firm or firms to fund youth navigators to provide education on harm reduction and overdose prevention under OD2A: LOCAL grant in middle and high schools and colleges and in places where those age groups congregate. The following objectives have been identified for this contract:

1. Acquire harm reduction and overdose prevention education services meeting the parameters, conditions and mandatory requirements presented in the document.
2. Establish contract pricing with the vendor that has the best proven performance, service and customer satisfaction.
3. Acquire services with the most advantageous overall cost to the county.

V. **Scope of Work**

The OD2A: LOCAL grant and overdose prevention requires a multifactor, community-wide, data-driven approach. The funding helps build a community infrastructure of overdose surveillance, harm reduction, recovery, and care in Sedgwick County. Addressing disparities is an overarching goal. Activities must be culturally-relevant to those disproportionately affected by overdose and historically underserved. For the OD2A: LOCAL funding, Sedgwick County Health Department (SCHD) focuses on the following people: Black African Americans, people ages 15-25, people who are unhoused and veterans. Part of the grant requires integrating harm reduction strategies and principles and reducing health inequities related to overdose by closing gaps in access to care and services. activities, including harm reduction education and naloxone distribution. Overarching OD2A education outcomes are to increase treatment entry, reduce drug use frequency and high-risk drug use practices, and improve the overall health of people who use drugs (PWUD), with a focus on reducing overdose.
This Request for Proposal (RFP) outlines one of the SCHD activities within the OD2A: LOCAL grant. The RFP will identify one firm or firms that can hire, train and provide hourly stipends for youth navigators in peer-led schools organizations who will provide harm reduction and overdose prevention education to people ages 15-25. The Navigators will work in middle and high schools and colleges and in places where those age groups congregate. Funding would allow the peer-led work to continue Fight Fentanyl messaging, one-on-one interactions, and creating presentations such as town halls with people with lived experience. This funding will enhance the capacity for organizations who are currently doing this work in areas of Wichita with high risk for overdose and populations who are unhoused. Vendors will provide data to SCHD for analysis.

*Pricing examples*
Assume the following cost proposals (examples only)
- A. $50,000.00
- B. $38,000.00
- C. $49,000.00

Company B with a total price of $38,000.00 is the low offer. Take the low offer and divide each of the other offers into the low offer to calculate a percentage. This percentage is then multiplied by the number of points available for the cost. In this case, 10 points are allocated to cost.

- A. $38,000.00 divided by $50,000.00 = .76
  \[.76 \times 10 = 7.6 \text{ points}\]
- B. $38,000.00 divided by $38,000.00 = 1.00
  \[1.00 \times 10 = 10 \text{ points}\]
- C. $38,000.00 divided by $49,000.00 = .77
  \[.77 \times 10 = 7.7 \text{ points}\]

Any final negotiations for services, terms and conditions will be based, in part, on the firm’s method of providing the service and the fee schedule achieved through discussions and agreement with the county’s review committee. The county is under no obligation to accept the lowest priced proposal and reserves the right to further negotiate services and costs that are proposed. The county also reserves the sole right to recommend for award the proposal and plan that it deems to be in its best interest.

The county reserves the right to reject all proposals. All proposals, including supporting documentation shall become the property of Sedgwick County. All costs incurred in the preparation of this proposal shall be the responsibility of the firm making the proposals. Sedgwick County reserves the right to select, and subsequently recommend for award, the proposed service which best meets its required needs, quality levels and budget constraints.
