Questions and Answers

Brandi Baily: I do not see an order cut-off date. Will it be available when we are ready to order it?

Brian Richey: At this time Ford hasn't cut-off their 2024 cut-off date for this model year. It will probably be April before they cut these dates off.

Tim Myers: This is replacing a vehicle that is almost 11 years old and has almost 175K miles, is that correct?

Brian Richey: That is correct.

Russell Leeds: This vehicle was part of the budget forecast, correct?

Brian Richey: Yes. We meant to buy it in 2023. Ford didn't get their 2024 dates until late in the year that is why we are behind the eight ball a little bit.

Russell Leeds: It was in the forecast and it was funded in the 2024 budget, so we're good?

Brian Richey: Yes.
