I. About this Document

This document is a Request for Proposal. It differs from a Request for Bid or Quotation in that the county is seeking a solution, as described on the cover page and in the following Background Information section, not a bid or quotation meeting firm specifications for the lowest price. As such, the lowest price proposed will not guarantee an award recommendation. As defined in Charter Resolution No. 68, Competitive Sealed Proposals will be evaluated based upon criteria formulated around the most important features of the product(s) and/or service(s), of which quality, testing, references, service, availability or capability, may be overriding factors, and price may not be determinative in the issuance of a contract or award. The proposal evaluation criteria should be viewed as standards that measure how well a vendor's approach meets the desired requirements and needs of the county. Criteria that will be used and considered in evaluation for award are set forth in this document. The county will thoroughly review all proposals received. The county will also utilize its best judgment when determining whether to schedule a pre-proposal conference, before proposals are accepted, or meetings with vendors, after receipt of all proposals. A Purchase Order/Contract will be awarded to a qualified vendor submitting the best proposal. **Sedgwick County reserves the right to select, and subsequently recommend for award, the proposed service(s) and/or product(s) which best meets its required needs, quality levels and budget constraints.**

The nature of this work is for a public entity and will require the expenditure of public funds and/or use of public facilities, therefore the successful proposer will understand that portions (potentially all) of their proposal may become public record at any time after receipt of proposals. Proposal responses, purchase orders and final contracts are subject to public disclosure after award. All confidential or proprietary information should be clearly denoted in proposal responses and responders should understand this information will be considered prior to release, however no guarantee is made that information will be withheld from public view.

II. Background

Sedgwick County, located in south-central Kansas, is one of the most populous of Kansas' 105 counties with a population estimated at more than 514,000 persons. It is the 16th largest in area, with 1,008 square miles, and reportedly has the second highest per capita wealth among Kansas' counties. Organizationally, the county is a Commission/Manager entity, employs nearly 2,500 persons, and hosts or provides a full range of municipal services, e.g. – public safety, public works, criminal justice, recreation, entertainment, cultural, human/social, and education.

The Regional Forensic Science Center (RFSC), a division within the Sedgwick County Department of Public Safety, houses the Office of the District Coroner and Forensic Science Laboratories. The Office of the District Coroner provides pathology services which include forensic autopsies and medicolegal death investigations. As mandated by law, the District Coroner has the responsibility for investigating deaths within Sedgwick County that occurred violently, under unlawful means, when in apparent health, in a suspicious or unusual manner, in police custody, or when the determination of the cause of death is held to be in the public interest. The primary goal of investigation and the post-mortem examination is to determine cause and manner of death in order to generate a death certificate. The RFSC provides autopsy and associated post-mortem toxicology services to surrounding counties on a fee-for-service basis. Medical Investigations operate 24 hours a day, seven (7) days a week and serve as the District Coroner's front line for all aspects of the death investigation. RFSC fields over 4000 reports of death and attends approximately over 600 death scenes each year. Including cases submitted to RFSC for post-mortem examination by counties throughout the south-central region of Kansas, over 1000 autopsies, partial autopsies, external examinations, and records are conducted annually. The Pathology Division has been accredited by the National Association of Medical Examiners (NAME) since 2001.

The RFSC has received multiple grant awards for the purpose of conducting comprehensive post-mortem toxicology and other expanded panel testing necessary for the proper certification of cause/manner of death. The RFSC is equipped with an ANAB-accredited Toxicology Laboratory capable of the testing but is seeking to expand upon the existing liquid chromatography tandem mass spectrometry (LC-MS/MS) currently in use for the confirmation and quantitation of drugs and drug metabolites in ante-mortem and post-mortem toxicology casework. As such, a liquid chromatography system with a quadrupole time-of-flight mass spectrometer (LC-QTOF or QTOF) is needed to augment current capabilities. The QTOF will enhance the sensitivity of screening procedures, require smaller evidentiary samplings, detect more potent drugs, and allow for untargeted screening. With the rise of novel drugs, especially benzodiazepines and fentanyl analogs, an untargeted screening method is important to detect impairing substances outside of our current scope. The desired installation location is currently equipped with standard 35-inch laboratory grade countertops positioned against a back wall where electrical supply is located.

III. Project Objectives

Sedgwick County, Kansas (hereinafter referred to as “county”) is seeking a firm or firms to provide a QTOF. The following objectives have been identified for this contract:

1. Acquire QTOF Instrumentation and Services meeting the parameters, conditions and mandatory requirements presented in the document.
2. Establish contract pricing with the vendor that has the best proven “track-record” in performance, service and customer satisfaction.
3. Acquire QTOF Instrumentation and Services with the most advantageous overall cost to the county.

C. Evaluation Criteria

The selection process will be based on the responses to this RFP. County staff will judge each response as determined by the scoring criteria below. Purchasing staff are not a part of the evaluation committee.

Component	Points
A. System performance, specifications, capability, specification preferences	40
B. Impact to existing infrastructure	10
C. Company support (historical and/or references) and projected ongoing expense	20
D. Training proposal and available peer support	10
E. Cost*	20
Total Points	100

*Assume the following cost proposals (**examples only**)

- A. \$50,000.00
- B. \$38,000.00
- C. \$49,000.00

Company B with a total price of \$38,000.00 is the low offer. Take the low offer and divide each of the other offers into the low offer to calculate a percentage. This percentage is then multiplied by the number of points available for the cost. In this case, 10 points are allocated to cost.

- | | | |
|---|---------|------------|
| A. \$38,000.00 divided by \$50,000.00 =.76 | .76*10 | 7.6 points |
| B. \$38,000.00 divided by \$38,000.00 =1.00 | 1.00*10 | 10 points |
| C. \$38,000.00 divided by \$49,000.00= .77 | .77*10 | 7.7 points |

Any final negotiations for services, terms and conditions will be based, in part, on the firm's method of providing the service and the fee schedule achieved through discussions and agreement with the county's review committee. The county is under no obligation to accept the lowest priced proposal and reserves the right to further negotiate services and costs that are proposed. The county also reserves the sole right to recommend for award the proposal and plan that it deems to be in its best interest.

The county reserves the right to reject all proposals. All proposals, including supporting documentation shall become the property of Sedgwick County. All costs incurred in the preparation of this proposal shall be the responsibility of the firm making the proposals. Sedgwick County reserves the right to select, and subsequently recommend for award, the proposed service which best meets its required needs, quality levels and budget constraints.
