In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interviews	
45. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	3
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
47. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	Through a review of unit rosters, data collection worksheets and through conversations with staff it was determined the facility did not have this targeted population during the onsite audit.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

71. Did you have access to all areas of the facility?

☒ Yes

☐ No

Was the site review an active, inquiring process that included the following:

72. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

☒ Yes

☐ No

73. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

---	-------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

77. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	☒ Yes ☐ No
---	--

78. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

79. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

	Deviations due to exigent circumstances are rare and are fully documented. (d) In coordination with the PREA Coordinator, the facility conducts an annual review of the staffing plan and monitoring systems. This review evaluates current practices, video monitoring effectiveness, and resource adequacy. Any adjustments are documented as part of the annual assessment. (e) As evidenced by the unannounced rounds logs, the facility maintains a written policy requiring intermediate-level or higher supervisors to make unannounced rounds on all shifts including those during night shifts, are documented and conducted without advance notice to staff unless operational needs necessitate otherwise. Exceeding this standard, the investigation reports reviewed contained detailed and factual information and was very well written. (b) The PCM shall coordinate the department process with law enforcement to ensure appropriate steps are taken in sequence to gather evidence of a crime and/or violation of the facility rules for allegations of sexual abuse. The PCM shall start the PREA Protocol Checklist and provide regular status updates and law enforcement reports to the director, deputy director, and PREA Coordinator. Once law enforcement has concluded their investigation, or declined to investigate, the PREA Coordinator shall assign a trained primary and secondary investigator to complete the administrative investigation. During the site review, the auditor asked staff to walk through the process and do a mock intake for demonstration purposes. (b) The assessments provided were conducted using an objective screening instrument. (c) At a minimum, the agency shall attempt to ascertain information about: (1) Prior sexual victimization or abusiveness; (2) Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse; (3) Current charges and offense history; (4) Age; (5) Level of emotional and cognitive development; (6) Physical size and stature; (7) Mental illness or mental disabilities; (8) Intellectual or developmental disabilities; (9) Physical disabilities; (10) The resident’s own perception of vulnerability; and (11) Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents. Interviews with PREA Coordinator, PREA Compliance Manager, staff responsible for risk screening, Administrator, and medical and mental health staff. There were no residents in isolation for risk of sexual victimization or who alleged to have suffered sexual abuse. There was no transgender, intersex, gay, lesbian, or bisexual residents. There are no staff that supervise isolation. Findings: (a) Within 30 days from an adult client's arrival, the facility shall reassess the adult client's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake process. Juvenile clients shall be reassessed periodically throughout their confinement. This needs to be documented and dated on the client's PREA Screening Tool The agency uses the results from the risk screenings conducted under § 115.341, along with any updated information, to make individualized decisions regarding each resident's housing, bed, education, program, and work assignments. These decisions are made with the primary goal of protecting residents from sexual abuse and ensuring their safety within the facility. (b) The facility does not use isolation. Residents are only placed in isolation as a last resort, and only when less restrictive alternatives are determined to be insufficient for ensuring the resident's safety. When isolation is used, it is temporary, and the

	resident continues to receive access to education, large-muscle exercise, regular medical and mental health care, and facility programming to the extent possible. (c) The agency does not base housing, bed, program, or work assignments solely on a resident's actual or perceived LGBTI status. Such status is never treated as an indicator of potential abusiveness and does not restrict access to programs or housing. (d) Placement decisions for transgender and intersex residents are made on a case-by-case basis, with primary consideration given to the resident's health and safety. Security concerns are also considered to ensure balanced and appropriate placement decisions. (e) The agency reassesses the housing and programming placements of all transgender and intersex residents at least twice per year. These reassessments help ensure ongoing safety and appropriate accommodations based on any changes in the resident's status or risk level. (f) The agency gives serious and documented consideration to the views of transgender and intersex residents regarding their safety and placement preferences. These perspectives are a critical part of the decision-making process and are factored into each resident's individual placement plan. (g) Transgender and intersex residents are consistently offered the option to shower separately from other residents. This measure is intended to support personal dignity, reduce vulnerability, and reinforce the agency's commitment to safety. (h) (i) The facility does not use isolation. According to the information in the PAQ, no residents were placed in isolation in the last 12 months.

9. Site Review: Signage; Internal and External Reporting Method; Sending and Receiving Mail; Record Storage; Staff Reporting

10. Interviews with PREA Compliance Manager, random staff, and residents. There were no residents who reported sexual abuse.

Findings:

(a) The agency will establish several internal mechanisms that allow residents to confidentially report incidents of sexual abuse, sexual harassment, retaliation by other residents or staff for reporting such incidents, and staff negligence or breaches of duty that may have facilitated such occurrences.

These methods are outlined in the Residents Handbook:

Complete an Emergency Grievance and give it to the supervisor on-duty or another trusted adult. Do not submit the grievance to the alleged abuser. Call the Kansas Protection Report Center Hotline – 1-800-922-5330. Report to a trusted adult, parent / guardian, attorney, school staff, and/or corrections staff. These methods include verbal or written reports to any staff member, the use of secure grievance forms, direct communication with designated PREA staff, and access to a confidential PREA hotline. All options are clearly communicated and accessible to ensure residents feel safe reporting concerns.

How to report signage is posted in each unit and other places within the facility. Postal mail is free and goes out five days a week.

(b) In addition to internal options, residents have access to at least one external reporting method through an independent public or private entity (Call the Kansas Protection Report Center Hotline – 1-800-922-5330) that is authorized to receive and forward allegations to the appropriate agency officials. Residents may submit reports anonymously if they choose. Contact information for the external entity is prominently posted in all housing units and included in the resident handbook to ensure visibility and accessibility. The hotline number was tested.
