Total			\$37,790.00
Availability Date	4 Weeks		

On behalf of Public Works, recommend to **accept the quote from J&J Drainage Products Co. in the amount of \$37,225.60.**

Sedgwick County Public Works needs to replenish its stock of metal pipe drainage structures. This product is used to pass stormwater runoff under unpaved county highways and drive entrances. Several crossroad culverts have failed due to recent rains this past spring and fall, thus requiring Public Works to purchase additional metal pipe to maintain safe and reliable highways.

J & J Drainage Products is a well-known vendor to Public Works and has supplied metal culvert pipes to Public Works for many years.
