

# Community Health Improvement Plan (CHIP) Development Meeting

December 9, 2025

SEDGWICK COUNTY  
Health Department

# Welcome

9:00 – 9:10 AM

Adrienne Byrne  
Health Director  
Sedgwick County Health Department

SEDGWICK COUNTY  
Health Department

# Today's Participants

- Ascension Via Christi
- Child Start
- City of Wichita Transit
- COMCARE of Sedgwick County
- CRIBS
- DCF
- Derby Recreation Commission - Derby, KS
- ESSDACK - Haysville Learning Cafe
- Fairmount Neighborhood Association
- Gathered
- GraceMed Health Clinic
- Healthy Blue Kansas
- Health & Wellness Coalition of Wichita
- Health ICT
- HopeNet
- Hunter Health
- Kansas Children's Service League
- Kansas Department of Health and Environment
- Kansas Infant Death and SIDS Network
- K-State Extension
- KUSM-W CRIBS
- Metropolitan Area Planning
- Minds Matter LLC
- Mirror
- NICHE at WSU Tech
- Owner Gang Prevention Center
- Project Access
- Sedgwick County Emergency Management
- Sedgwick County Health Department
- Sedgwick Co. Food and Farm Council
- The Center
- The Neighboring Movement
- United Way of the Plains
- Urban League of Kansas
- Valley Hope Addiction Treatment and Recovery
- Wichita Area Sexual Assault Center
- Wichita Public Library
- Wichita State University, CEI

SEDGWICK COUNTY  
**Health Department**

# Meeting Objectives

- Hear from experts about their work around CHIP Health Priorities
- Draft goals for the 2026 CHIP

SEDGWICK COUNTY  
Health Department

# Meeting Logistics

- Entry/exit doors
- Restrooms
- Breakfast available through morning break
- 30-minute lunch starts around 11:45 am
  - Eat at your Health Priority table

SEDGWICK COUNTY  
Health Department

# Meeting Agenda

## Morning:

- Community expert presentations
- CHIP design
- Health Education lens

## After lunch:

- Facilitated group work at Health Priority tables
- Tables report out

## Before you leave:

- Meeting effectiveness survey

SEDGWICK COUNTY  
Health Department

# Resources

## Participant Packets

- Agenda
- Two worksheets
  - Morning: Speaker Notes
  - After lunch: Goal Creation
- Reference documents
  - Guidelines for creating CHIP goals/outcome
  - 2023-25 CHIP goals and outcomes

SEDGWICK COUNTY  
Health Department

## At the Table

- Logic Model
- Outcome Measures
- Meeting Effectiveness Survey

# Where Are We Now?

9:10 – 9:20 AM

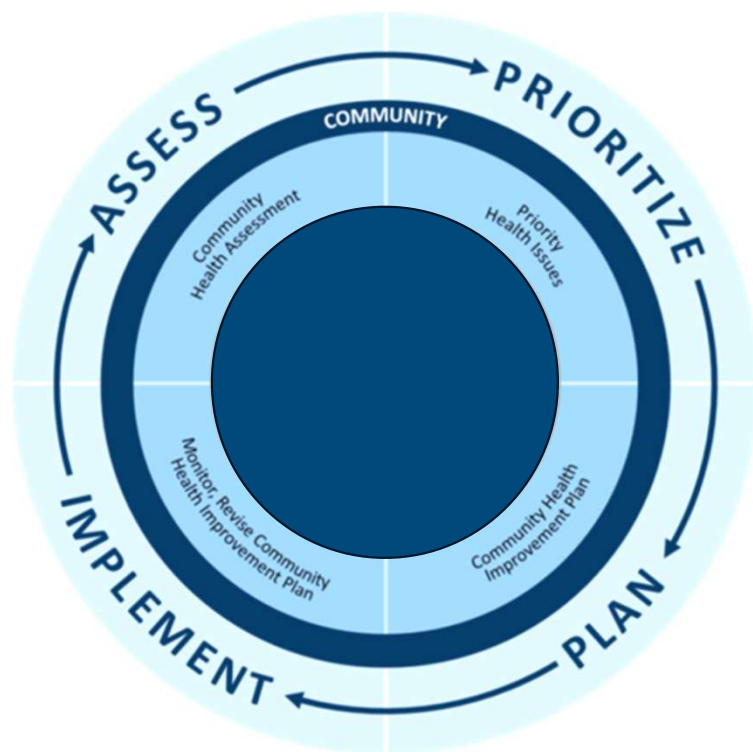

Ketki Kulkarni  
Community Health Analyst  
Sedgwick County Health Department

SEDGWICK COUNTY  
Health Department

# Community Health Improvement Cycle

Through data, strategic collaborations, and community power and engagement, we improve the community's health.

- Assess the community's health with the Community Health Assessment (CHA)
- Prioritize health issues
- Plan the goals for the Community Health Improvement Plan (CHIP)
- Implement the CHIP

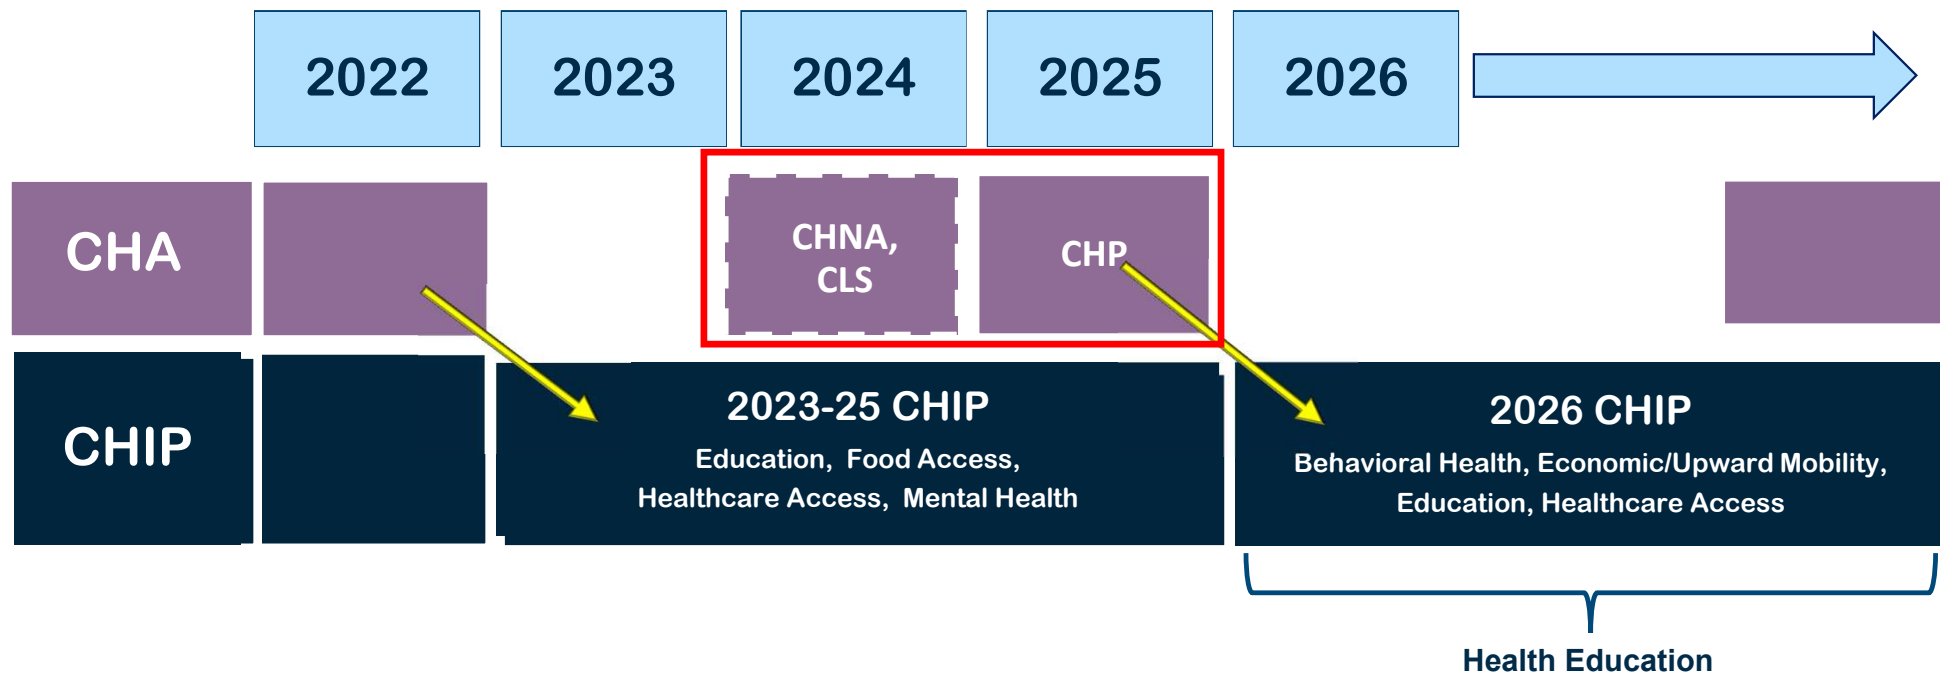

SEDGWICK COUNTY  
Health Department

## Meet Taylor, (an imaginary) resident of Wichita

**Knowing which resources to access**

Have I observed someone else  
in my life doing this?

How ready do I feel to  
do this?

How much do I think this  
will make a difference?

What's considered normal  
in my friend circle?

How confident am I that  
I can do this?

What challenges will I  
have in seeking care?

How easy do I  
think this will be  
to do?

Will there be any  
negative impacts in my  
life if I do this?

What are the benefits of  
seeking care?

Does this make sense  
based on my culture?

### **Knowing which resources to access**

Do I believe anything can change?

What advice do my  
family members give?

How much stress will  
this create in my life?

When I go to my first appointment, do I feel welcome/comfortable?

Do I have childcare?

I'm struggling to get out of bed today, much less take something else on.

My grandpa said not to go to a therapist.

Can I get off work or are hours outside of my work time?

How will I get there?  
(transportation)

I don't want people to think I'm "crazy."

Shouldn't I be able to just get through this on my own?

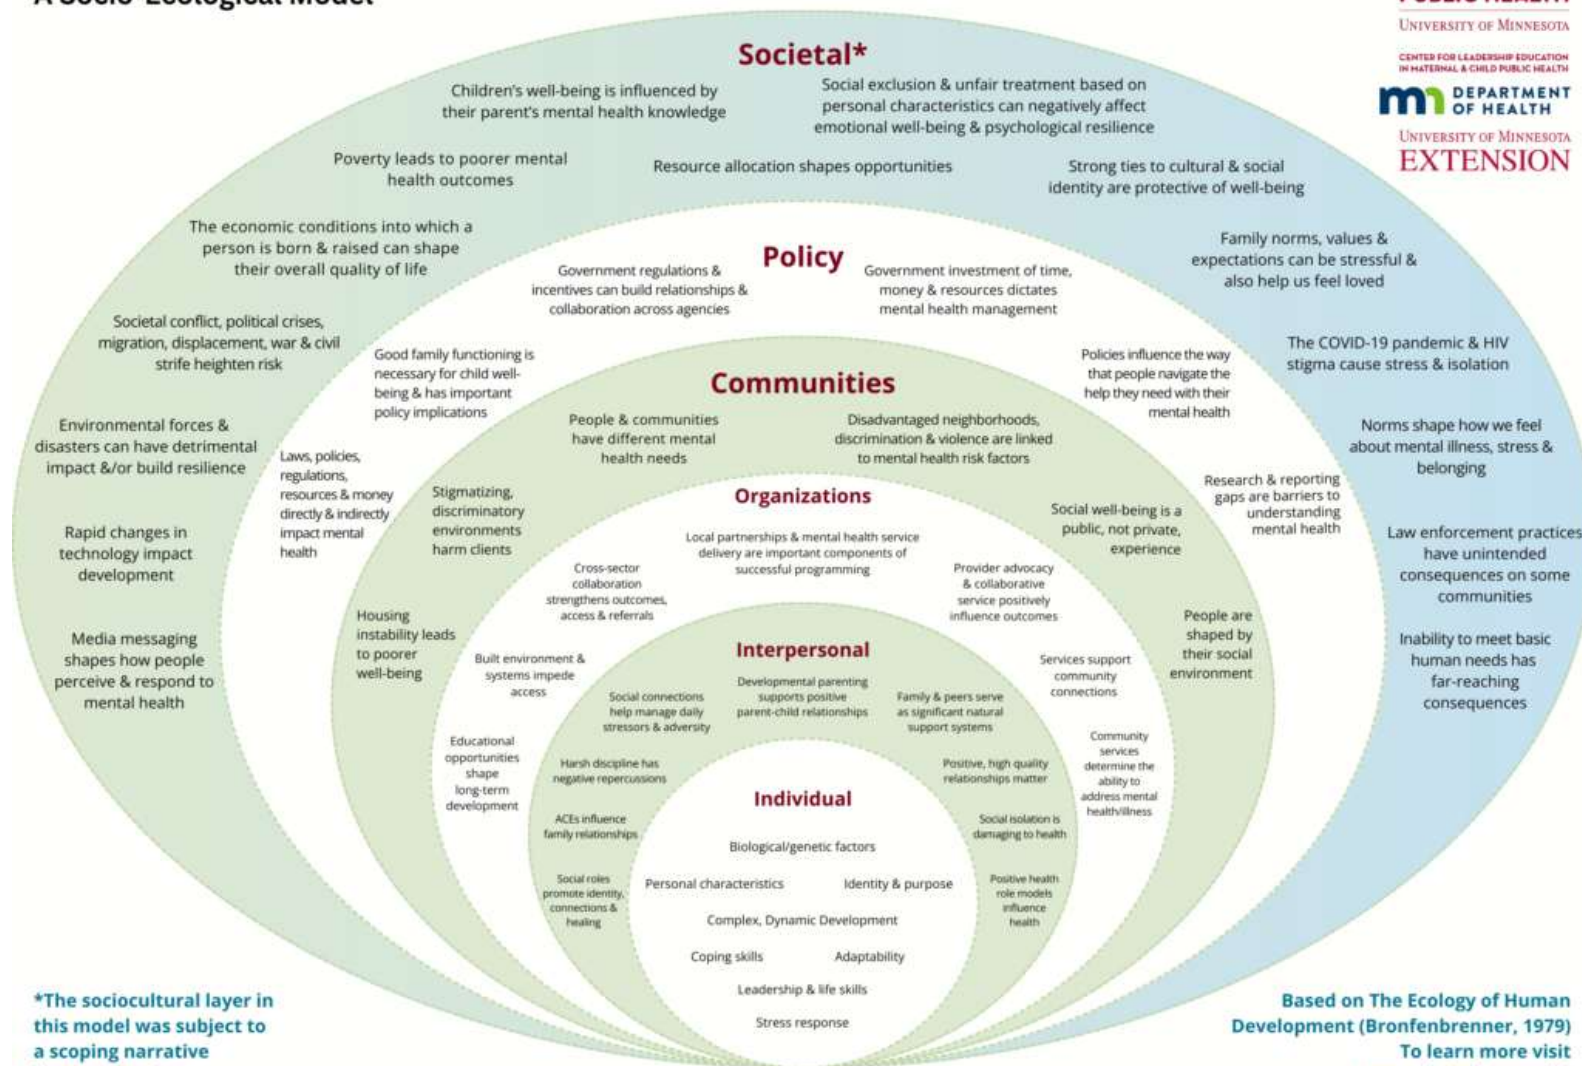

### Knowing which resources to access

Could someone use it against me if I seek help?

Will this make a difference?

Can I pay for this?

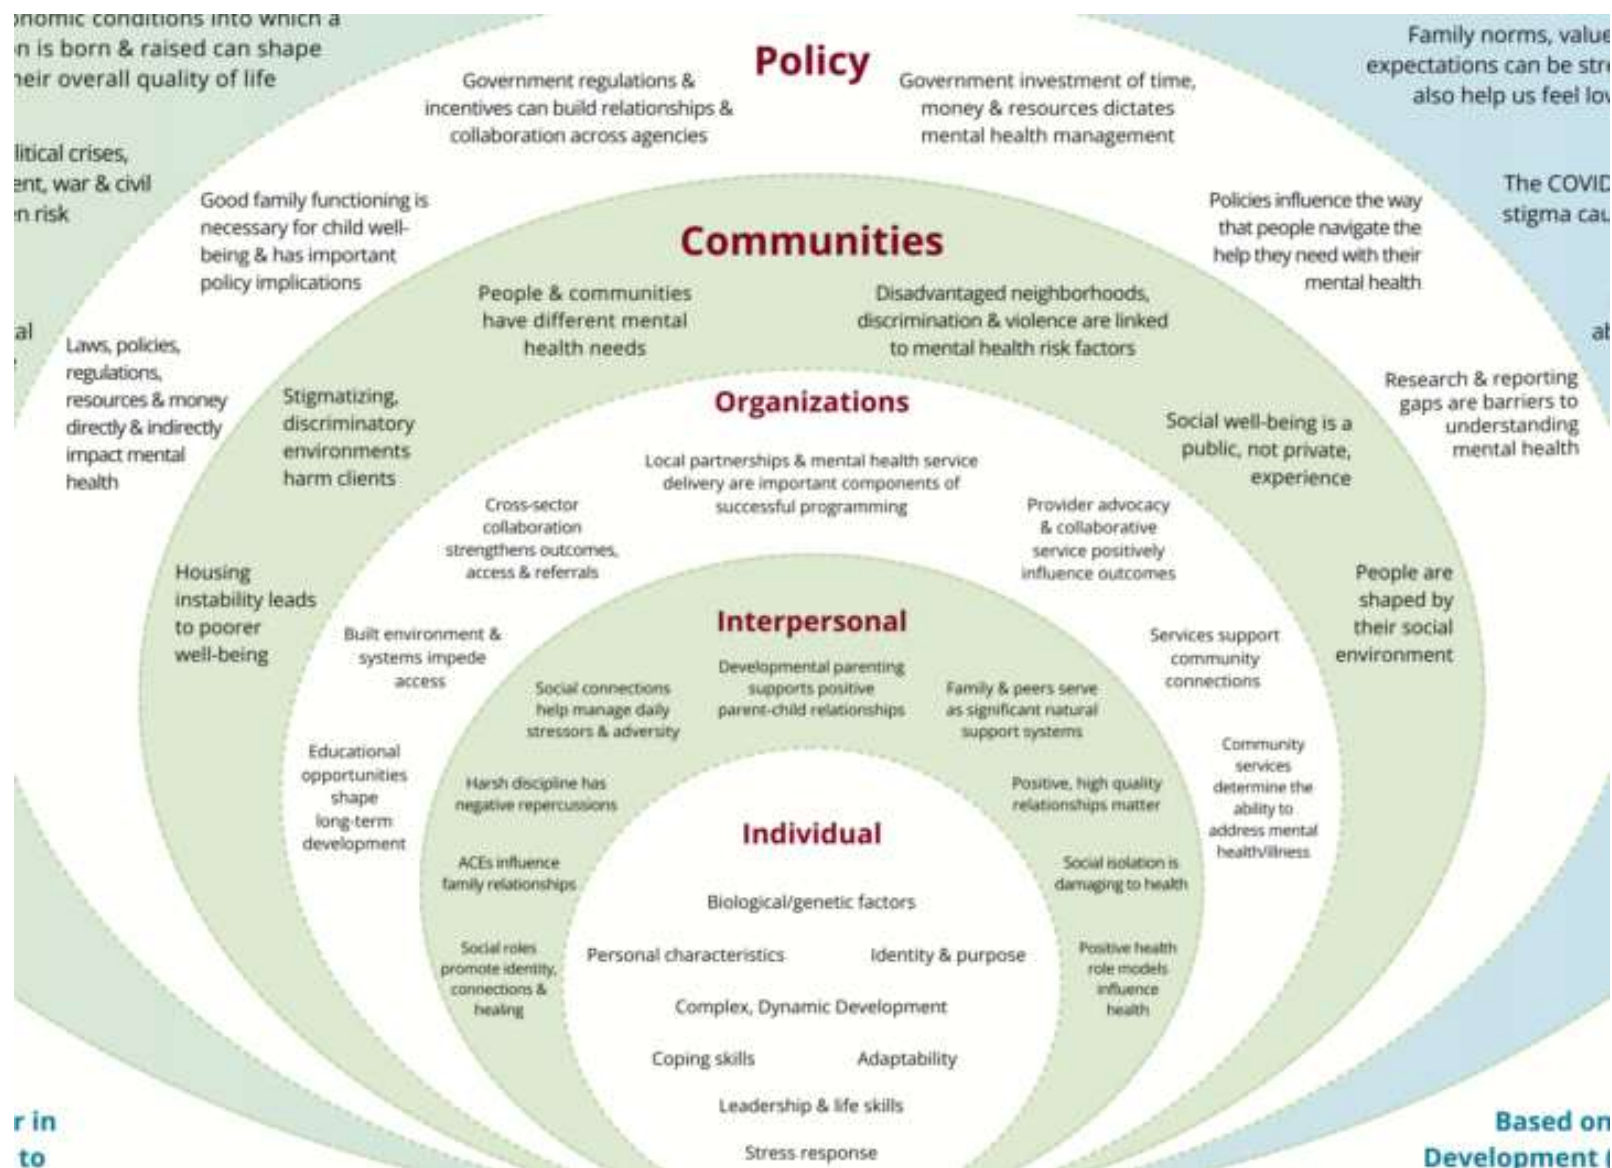

## Mental Health & Well-being: A Socio-Ecological Model

\*The sociocultural layer in this model was subject to a scoping narrative literature review

Based on The Ecology of Human Development (Bronfenbrenner, 1979)

# Mental Health, Mental Illness, Substance Use Disorder

Elizabeth Ablah, PhD, MPH, CPH

Professor of Population Health

University of Kansas School of Medicine-Wichita

# Accomplished

- Conducted interviews about mental health and illness (n=81)
- Conducted community trainings about mental health and illness
  - Skills based training for interested individuals (n=25)
  - Skills based training for trainers (n=42)
  - Knowledge based training for community at large (n=926)
- Worked with partners to conduct training for 60 community health workers to improve knowledge and comfort with working with those who have mental illness

# Accomplished

- Assessment of mental health organizations – what kind of workforce they need
- Directory of mental health professionals with experience, expertise
- Videos, resources

# Mental Health Campaign

---

With quant and qual eval data

# Community Mental Health Campaign

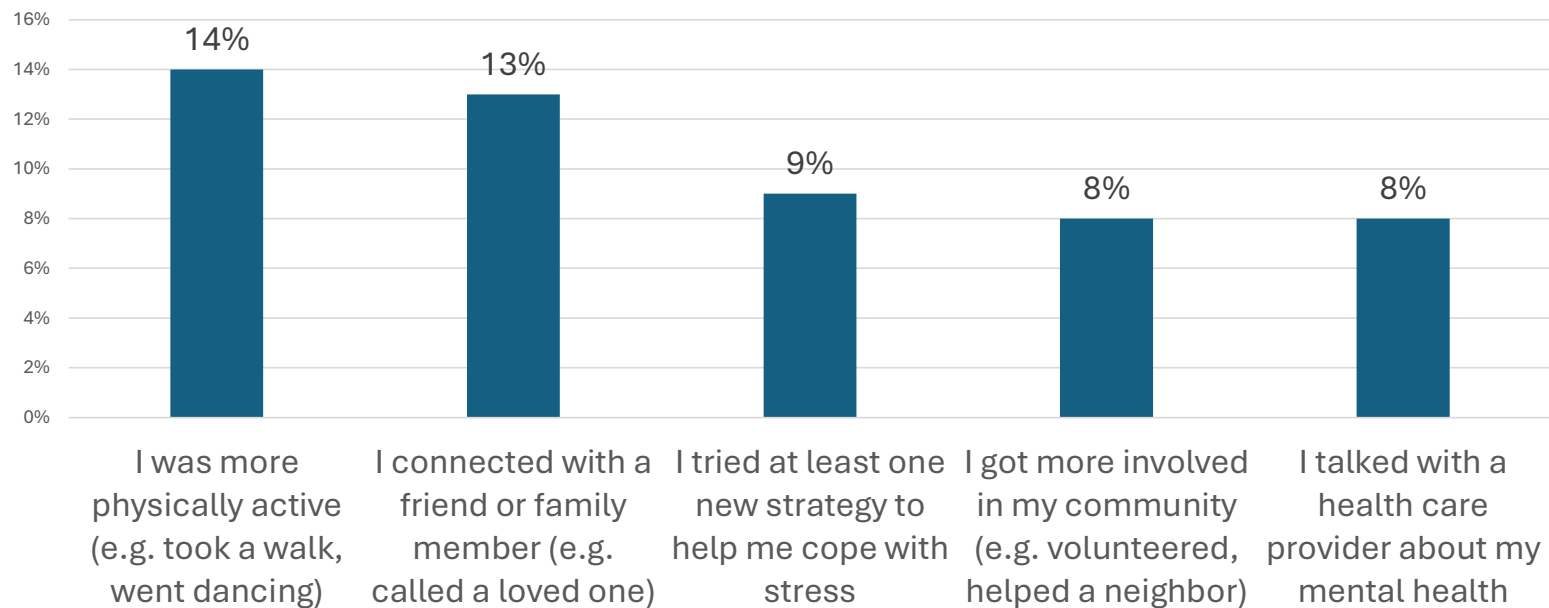

# Community Mental Health Campaign (Spanish)

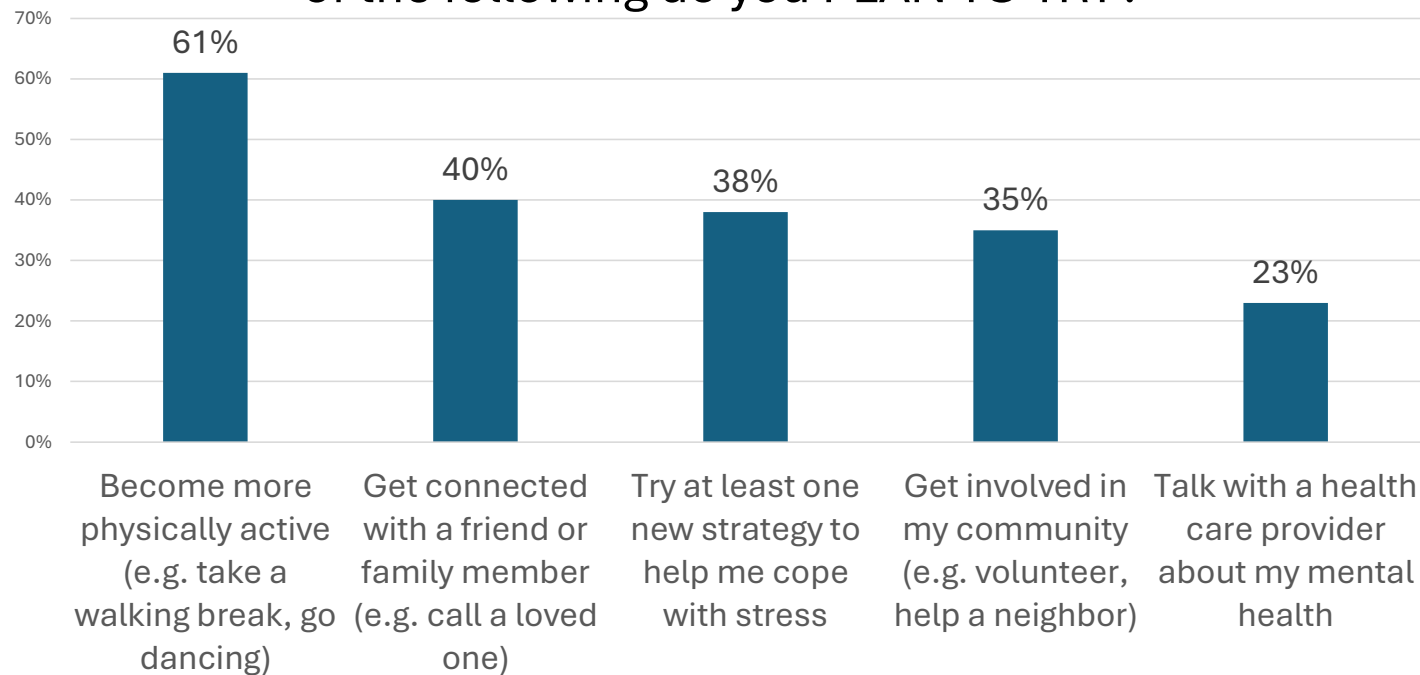

# Community Mental Health Campaign (Vietnamese)

Between the first time you saw the campaign image and today,  
have you engaged in any of the following activities BECAUSE of the campaign?

Now that you have seen this campaign image, which of the following do you PLAN TO TRY?

## The Campaign Gave Me Ideas on How to Improve My Mental Health

Nearly all (94%, n=405) reported that the campaign had given them ideas on how to improve their mental health

# Substance Use Disorder

---

# Accomplished

- Conducted interviews about SUD (n=82)
- Conducted community trainings about SUD
  - Knowledge based training for community at large (n=429)
- Worked with partners to conduct training for 75 community health workers to improve knowledge and comfort with working with those who have mental illness and/or SUD

# Accomplished

- Assessment of organizations serving those with mental illness and/or SUD – what workforce they need
- Directory of SUD resources
- Cost savings analysis of COMCARE and SACK services

# Accomplished with SCHD

- Training of healthcare professionals
  - SBIRT (n= 141)
  - Clinical guideline regarding opioid prescription (n= 131)
- Training of public safety professionals
  - SBIRT (n= 592)

# Accomplished with SCHD

## Smaller studies/projects

- Distribution and use of naloxone
- Peer support
- Relationship between substance overdose and wastewater

# In Process with SCHD

- Organizing work group teams
  1. Community health workers as wrap-around services in systems where needed (ED, criminal and legal, recovery housing, unhoused, pharmacies)
  2. Work for sustained integrated care
    - Address reimbursement rates
    - Address policy changes needed
    - Sales tax initiative
  3. Support re-entry
  4. Expand opportunities for diversion and treatment
  5. Advocate for increase in MAT prescriptions
  6. Improve service delivery post non-fatal overdose
  7. Community stigma reduction

# SUD Health Literacy Campaign

We have a crisis. You can help.  
**Start** by changing your **words**.

*Junkie,  
Druggie,  
Addict*

***Person with  
Substance  
Use Disorder***

# Language Intervene Guide Help Treatment

## Be the LIGHT

People with substance use disorder may be walking alone on a dark path and they need someone to help light it for them. Physicians can offer that light.

### Language

Use person-first, medically appropriate language.

### Intervene

Use a validated screening tool, which takes seconds for a patient to complete, to assess the severity of use (Screen). Then, conduct a brief intervention to increase patients' insight regarding substance use (Brief Intervention).

### Guide

Guide or refer patients to treatment.

### Help

Offer to help, without conveying judgment. When a person feels accepted for who they are, regardless of how unhealthy their current behavior is, it allows them the freedom to consider change, rather than needing to defend against it.

### Treat

Provide medication assisted treatment and connect patients with substance use disorder counselors.

For more information and resources on how you can be the light, go to: [kumc.edu/ppta](http://kumc.edu/ppta)

## Words shape how we view and treat people.

The words we use can unintentionally create stigma. Stigma is one of the biggest barriers to treatment and recovery for substance use disorders.

### Words commonly used

User  
Addict  
Substance Abuser

### What patients hear

It's my fault  
There's no hope  
I'm a criminal

Using person-first, medically appropriate language helps breakdown barriers to treatment and reduce stigma.

### Stigmatizing Terms

User, Addict, Junkie  
Substance abuser/user

Alcoholic, Drunk

Dirty, Failed a drug test

### Medically Accurate or Preferred Terms

Person with a substance use disorder (SUD)

Person with alcohol use disorder (AUD)

Tested positive (on a screen)

# Language Intervene Guide Help Treatment

## Validated Screening Tools

### Brief health screen

We ask all our adult patients about substance use because it can affect your health. Please ask your doctor if you have any questions. Your answers on this form will remain confidential.

#### Alcohol:

One drink =

12 oz.  
beer

5 oz.  
wine

1.5 oz.  
liquor (one shot)

How many times in the past year have you had **4** or more drinks in a day? \_\_\_\_\_

**Drugs:** Recreational drugs include methamphetamines (speed, crystal) cannabis (marijuana, pot), inhalants (paint thinner, aerosol, glue), tranquilizers (Valium), barbiturates, cocaine, ecstasy, hallucinogens (LSD, mushrooms), or narcotics (heroin).

How many times in the past year have you used a recreational drug or used a prescription medication for non-medical reasons? \_\_\_\_\_

# Language Intervene Guide Help Treatment

## Validated Screening Tools

### Alcohol screening questionnaire (AUDIT)

Our clinic asks all patients about alcohol use at least once a year. Drinking alcohol can affect your health and some medications you may take. Please help us provide you with the best medical care by answering the questions below.

One drink equals:

12 oz.  
beer

5 oz.  
wine

1.5 oz.  
liquor  
(one shot)

	Never	Monthly or less	2 - 4 times a month	2 - 3 times a week	4 or more times a week
1. How often do you have a drink containing alcohol?	Never	Monthly or less	2 - 4 times a month	2 - 3 times a week	4 or more times a week
2. How many drinks containing alcohol do you have on a typical day when you are drinking?	0 - 2	3 or 4	5 or 6	7 - 9	10 or more
3. How often do you have four or more drinks on one occasion?	Never	Less than monthly	Monthly	Weekly	Daily or almost daily
4. How often during the last year have you found that you were not able to stop drinking once you had started?	Never	Less than monthly	Monthly	Weekly	Daily or almost daily
5. How often during the last year have you failed to do what was normally expected of you because of drinking?	Never	Less than monthly	Monthly	Weekly	Daily or almost daily
6. How often during the last year have you needed a first drink in the morning to get yourself going after a heavy drinking session?	Never	Less than monthly	Monthly	Weekly	Daily or almost daily
7. How often during the last year have you had a feeling of guilt or remorse after drinking?	Never	Less than monthly	Monthly	Weekly	Daily or almost daily
8. How often during the last year have you been unable to remember what happened the night before because of your drinking?	Never	Less than monthly	Monthly	Weekly	Daily or almost daily
9. Have you or someone else been injured because of your drinking?	No		Yes, but not in the last year		Yes, in the last year
10. Has a relative, friend, doctor, or other health care worker been concerned about your drinking or suggested you cut down?	No		Yes, but not in the last year		Yes, in the last year
	0	1	2	3	4

Have you ever been in treatment for alcohol use? ☐ Never ☐ Currently ☐ In the past

## Validated Screening Tools

### Drug Screening Questionnaire (DAST)

Using drugs can affect your health and some medications you may take. Please help us provide you with the best medical care by answering the questions below.

- |   |   |
|---|---|
| <input type="checkbox"/> methamphetamines (speed, crystal)        | <input type="checkbox"/> cocaine  |
| <input type="checkbox"/> cannabis (marijuana, pot)                | <input type="checkbox"/> narcotics (heroin, oxycodone, methadone, etc.) |
| <input type="checkbox"/> inhalants (paint thinner, aerosol, glue) | <input type="checkbox"/> hallucinogens (LSD, mushrooms)                 |
| <input type="checkbox"/> tranquilizers (valium)                   | <input type="checkbox"/> other _____                                    |

How often have you used these drugs? ☐ Monthly or less ☐ Weekly ☐ Daily or almost daily

1. Have you used drugs other than those required for medical reasons?	No	Yes
2. Do you abuse more than one drug at a time?	No	Yes
3. Are you always able to stop using drugs when you want to?	No	Yes
4. Have you ever had blackouts or flashbacks as a result of drug use?	No	Yes
5. Do you ever feel bad or guilty about your drug use?	No	Yes
6. Does your spouse (or parents) ever complain about your involvement with drugs?	No	Yes
7. Have you neglected your family because of your use of drugs?	No	Yes
8. Have you engaged in illegal activities in order to obtain drugs?	No	Yes
9. Have you ever experienced withdrawal symptoms (felt sick) when you stopped taking drugs?	No	Yes
10. Have you had medical problems as a result of your drug use (e.g. memory loss, hepatitis, convulsions, bleeding)?	No	Yes

Have you ever injected drugs? ☐ Never ☐ Yes, in the past 90 days ☐ Yes, more than 90 days ago

Have you ever been in treatment for substance abuse? ☐ Never ☐ Currently ☐ In the past

0	1-2	3-5	6+

# Language Intervene Guide Help Treatment

## Steps of the Brief Intervention

### Raise the subject

"Thanks for filling out this form – is it okay if we briefly talk about your substance use?"  
"Just so you know, my role is to help you assess the risks so you can make your own decisions. I want to help you improve your quality of life on your own timeline."  
"What can you tell me about your substance use?"

### Share information

Explain any association between the patient's use and their health complaint, then ask, "Do you think your use has anything to do with your [anxiety, insomnia, etc.],?"  
Share information about general risks of use and/or low-risk limits of alcohol use.  
Ask the patient: "What do you think of this information?"

### Enhance motivation

Ask patient about pros and cons of their use, then summarize what you heard.  
"Where do you want to go from here in terms of your use? What's your goal?"  
Gauge patient's readiness/confidence to reach their goal on a scale of 0-10. Then ask; "Why did you pick that number instead of \_\_\_\_ [lower number]?"

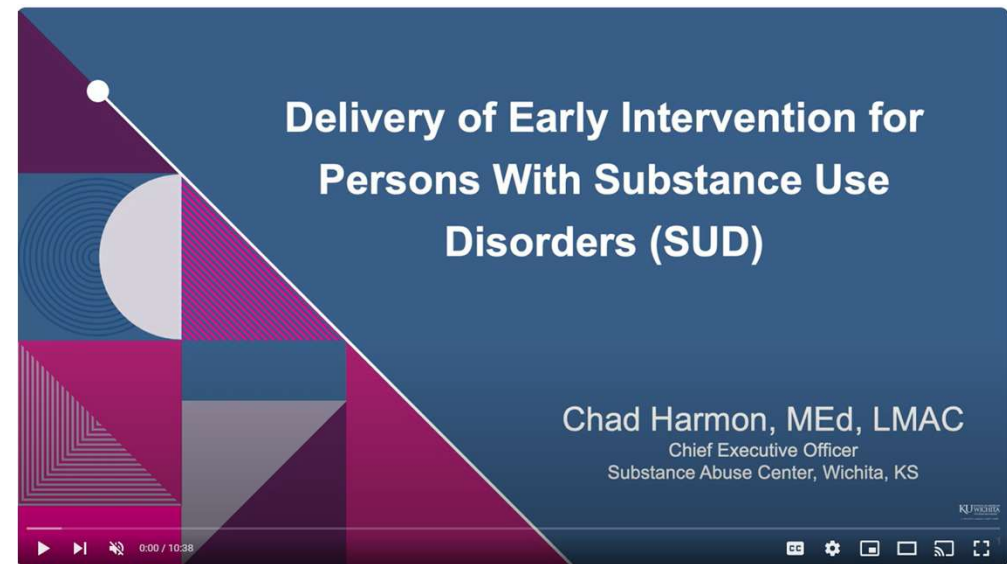

### Identify a plan

If patient is ready, ask: "What steps do you think you can take to reach your goal?"  
Affirm the patient's readiness/confidence to meet their goal and affirm their plan.  
"Can we schedule an appointment to check in and see how your plan is going?"

# Language Intervene Guide Help Treatment

## Motivational Interviewing Quick Reference Guide

### Principles of Motivational Interviewing

#### Express empathy

Motivational interviewing relies on asking **open questions** and using **reflective listening** – both of which demonstrate genuine empathy. If a patient is not yet ready to change, pressure from others may prevent them from moving toward it. Pressure rarely helps to facilitate change. **Strive to be curious rather than judgmental.**

#### Develop discrepancy

Shine a light on the difference between what patients say they want and what they are doing. It is critical that reasons for change are not presented by the health care provider, but rather by the patient. Patients better understand what they believe by hearing themselves say it.

#### Roll with resistance

Patient resistance is a signal to the health care provider to change strategies. When a provider argues for why a patient should change, the common patient response is to resist “being told what to do.” On the other hand, when a provider **helps the patient develop their own arguments for change**, patient resistance is likely to diminish.

#### Support self-efficacy

**Provide hope and enhance confidence** that change is possible. Health care providers can help patients increase self-efficacy by **helping them to see the strengths they already possess** and have used in past situations to effect change.

## Video – Motivational Interviewing

Dr. Mary Koehn describes theory and evidence associated with motivational interviewing and explains communication strategies to promote behavioral change.

# Language Intervene Guide Help Treatment

## BUPRENORPHINE QUICK START GUIDE

### Important Points to Review With the Patient

Specifically discuss safety concerns:

- Understand that discontinuing buprenorphine increases risk of overdose death upon return to illicit opioid use.
- Know that use of alcohol or benzodiazepines with buprenorphine increases the risk of overdose and death.
- Understand the importance of informing providers if they become pregnant.
- Tell providers if they are having a procedure that may require pain medication.

### Facts About Buprenorphine

- FDA approved for Opioid Use Disorder treatment in an office-based setting.
- For those with tolerance to opioids as a result of OUD, buprenorphine is often a safe choice.
- Buprenorphine acts as a partial mixed opioid agonist at the  $\mu$ -receptor and as an antagonist at the  $\kappa$ -receptor. It has a higher affinity for the  $\mu$ -receptor than other opioids, and it can precipitate withdrawal symptoms in those actively using other opioids.
- It is dosed daily, has a long half-life, and prevents withdrawal in opioid dependent patients.
- Can be in tablet, sublingual film, or injectable formulations.
- Many formulations contain naloxone to prevent injection diversion. This formulation is the preferred treatment medication. The buprenorphine only version is often used with pregnant women to decrease potential fetal exposure to naloxone.
- There is a "ceiling effect" in which further increases above 24mg in dosage does not increase the effects on respiratory or cardiovascular function.
- Buprenorphine should be part of a comprehensive management program that includes psychosocial support. Treatment should not be withheld in the absence of psychosocial support.
- Overdose with buprenorphine in adults is less common, and most likely occurs in individuals without tolerance, or who are using co-occurring substances like alcohol or benzodiazepines.

### Checklist for Prescribing Medication for the Treatment of Opioid Use Disorder

1

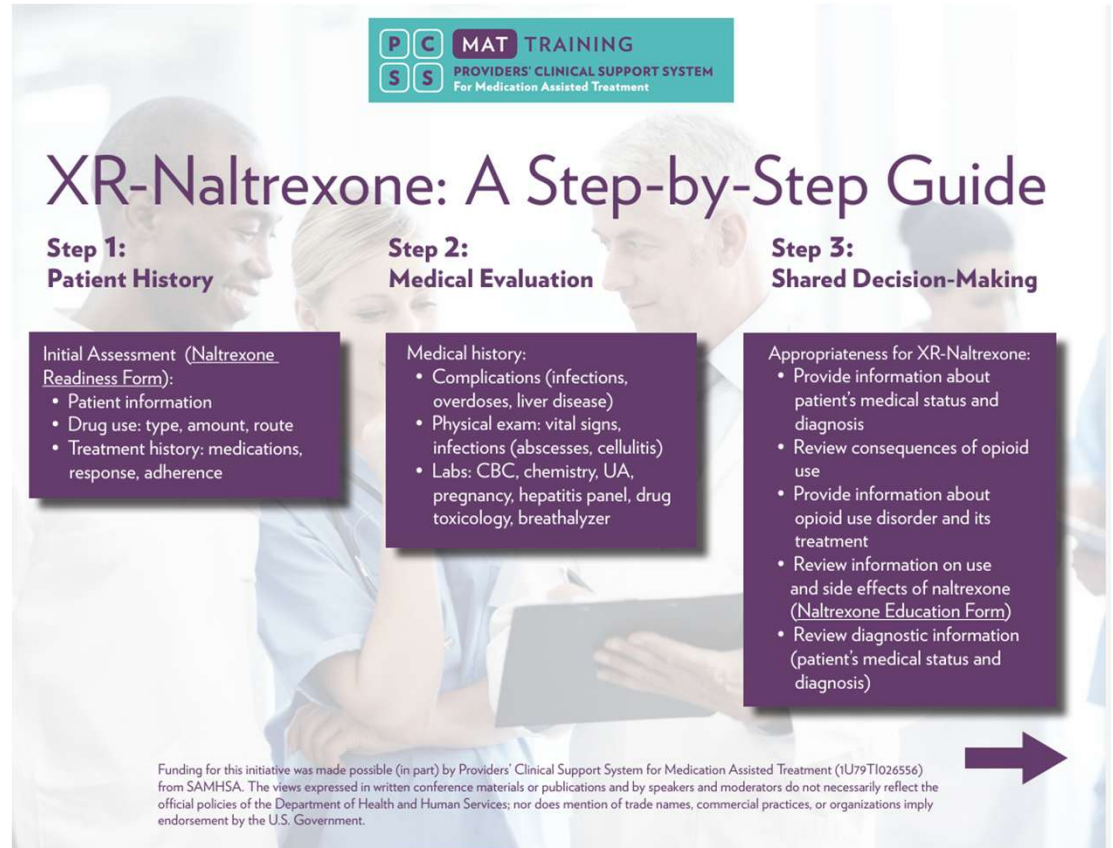

#### Assess the need for treatment

For persons diagnosed with an opioid use disorder,\* first determine the severity of patient's substance use disorder. Then identify any underlying or co-occurring diseases or conditions, the effect of opioid use on the patient's physical and psychological functioning, and the outcomes of past treatment episodes.

Your assessment should include:

- A patient history
- Ensure that the assessment includes a medical and psychiatric history, a substance use history, and an evaluation of family and psychosocial supports.
- Access the patient's prescription drug use history through the state's Prescription Drug Monitoring Program (PDMP), where available,

# Language Intervene Guide Help Treatment

**PCSS MAT TRAINING**  
PROVIDERS' CLINICAL SUPPORT SYSTEM  
For Medication Assisted Treatment

## XR-Naltrexone: A Step-by-Step Guide

**Step 1: Patient History**

**Initial Assessment (Naltrexone Readiness Form):**

- Patient information
- Drug use: type, amount, route
- Treatment history: medications, response, adherence

**Step 2: Medical Evaluation**

**Medical history:**

- Complications (infections, overdoses, liver disease)
- Physical exam: vital signs, infections (abscesses, cellulitis)
- Labs: CBC, chemistry, UA, pregnancy, hepatitis panel, drug toxicology, breathalyzer

**Step 3: Shared Decision-Making**

**Appropriateness for XR-Naltrexone:**

- Provide information about patient's medical status and diagnosis
- Review consequences of opioid use
- Provide information about opioid use disorder and its treatment
- Review information on use and side effects of naltrexone (Naltrexone Education Form)
- Review diagnostic information (patient's medical status and diagnosis)

Funding for this initiative was made possible (in part) by Providers' Clinical Support System for Medication Assisted Treatment (1U79TI026556) from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

## Did you know?

By removing barriers, we increase our patients' overall health. Our patients deserve Health Equity

**80%** Did you know...that 80% of what makes up someone's health is determined by what happens outside of the hospital and health clinic? Of the 80%, the largest segment is made up of the "Social Determinants of Health" or "Socioeconomic Factors".

Source: Institute for Clinical Systems Improvement, Going Beyond Clinical Walls: Solving Complex Problems (October 2014)

## REVENUE STREAMS 2025

### Payor Mix

How do COMCARE patients pay for their care?

### Funding Streams

How is COMCARE funded?

**Increased capacity allowed COMCARE to serve more patients, and to serve them faster**

## Children

861 served in 2022.

1,710 served in 2024.

Average number of days from call to initial evaluation decreased from 14 days to less than two days.

## Adult

1,651 served in 2022.

1,776 served in 2024.

Average number of days from call to initial evaluation decreased from one day to less than half a day.

## Addiction Treatment Services

372 served in 2022.

509 served in 2024.

Average number of days from call to initial evaluation decreased from 36.5 days to less than an hour.

# COMMUNITY PARTNERSHIPS 2023-2025

## Care Coordination

### Agency-wide Care Coordination Activities

1<sup>st</sup> Quarter 2024- 1,830 activities

1<sup>st</sup> Quarter 2025- 5,958 activities

This means more people are being connected to food, housing, primary health care, and more!

## Original Partners

**Schools:** USD 259 (36), Maize (7), Derby, Mulvane (2), and Valley Center (2)

**Foster Care Facilities:** St. Francis, KVC, TFI, and Cornerstones

**Law Enforcement Agencies:** Sheriff, Corrections, and City PD

**Hospitals:** Via Christi, Wesley, and St. Joe

**State Hospitals:** KVC, OSH

**Physical Health Providers:** Hunter Health and Grace Med

**Providers:** SACK, MHA, and Behavioral Link

**Housing:** City of Wichita and Human Kind

**Veterans:** KS National Guard, KS Army National Guard, KS Air National Guard, and Dole VA

**Other Partners:** NAMI, CMHCs (25), KDADS, and Association of CMHC

## New Partnerships Since Jan 2023

**From 99 to 114  
partnerships**

**Schools:** Valley Center (4), Maize (1)

**Foster Care Facility:** Ember Hope

**Physical Health Providers:** Sedgwick County Health Department

**Providers:** DCCCA and JayDoc Community Clinic

**Housing:** Union Rescue Mission, Wichita Children's Home, and 2nd Light

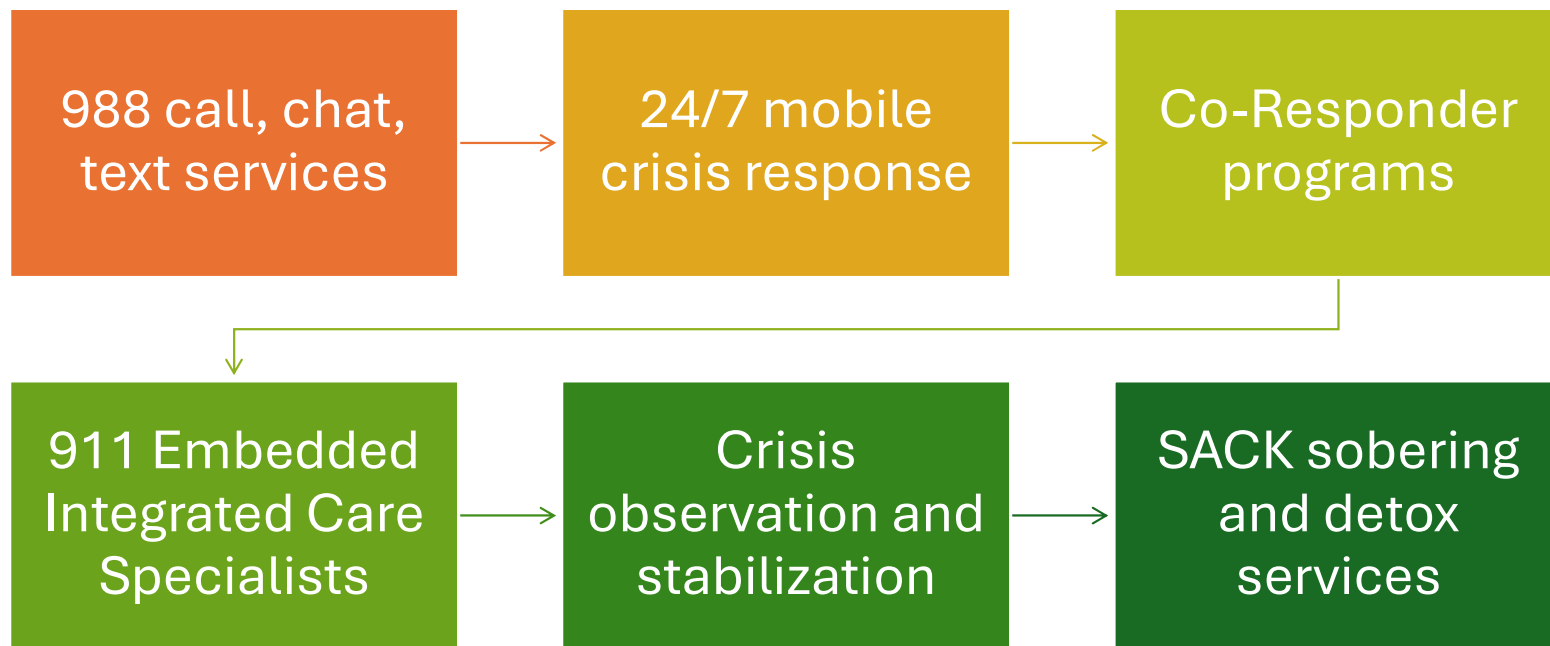

**Other Partners:** Hart Pharmacy

**Care Coordination Provider:** Unite Us

**Universities:** Newman University and Wichita State University

# Crisis Services

# Crisis and Mobile Response 2024

## Crisis Expansion Goals

- Design a facility that consolidates all staff and services within a single, cohesive location.
- Develop an environment that is welcoming and comfortable for patients, ensuring they have the space necessary for a positive experience.
- Transition services from a residential facility to a Crisis Intervention Center, a new level of care for Sedgwick County.
- Establish a workplace that equips staff with the resources needed to effectively perform their roles, along with designated spaces for rest and rejuvenation.

# Future Focus

CARE  
COORDINATION/COMMUNITY  
PARTNERSHIPS

CARE FOR UNINSURED AND  
UNDERINSURED

GROWING SENIOR POPULATION

# Future Focus-Care Coordination

- 7 added Care Coordinators
  - 2- Second Light
  - 1- Mobile Care Coordination
  - 1- 988 Follow Up
  - 1- Coordination of Follow up after ER/Hospitalization
  - 1- Drug Court
  - 1- Housing Support
- How can we track and document success?

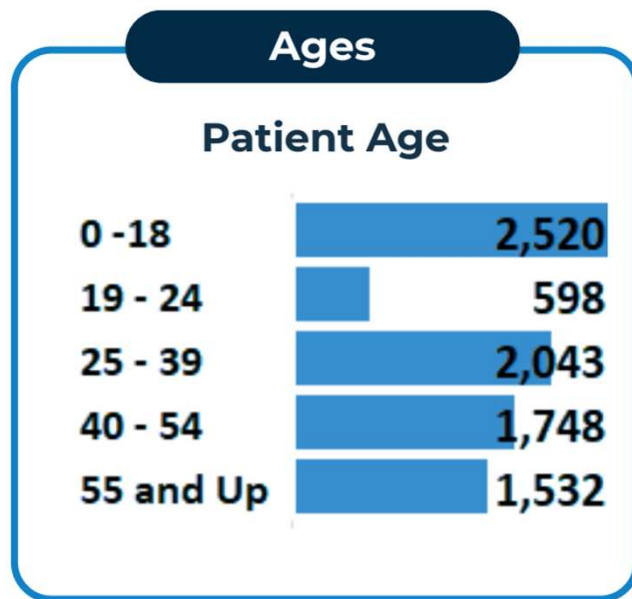

## Future Focus-Uninsured/Underinsured

- No current medical detox options for patients without private insurance.
- No current reimbursement options for MAT, testing, and behavioral health medications
- Benefits applications-initial and renewal applications

# Future Focus-Aging Population

## COMCARE demographics by age

## Sedgwick County Data

- 16.3% of the population is 65 or older
- While there are services, **access can still be a barrier**: older adults may face mobility issues, limited ability to pay, or lack of awareness of community mental health services.
- **Comorbidity**: Older adults often have multiple health conditions (chronic illnesses, mobility issues) — mental health problems like depression or anxiety can worsen physical health outcomes, reduce adherence to treatment, and increase hospitalization risk.
- Increased demand on the healthcare system
- Financial challenges (reimbursement rates, workforce challenges, complex care)

# Questions?

**COMCARE**  
*A Certified Community Behavioral Health Clinic*

# Education

Brad Richards, Wichita State University

SEDGWICK COUNTY  
Health Department

A photograph of three young children sitting together and smiling. On the left is a Black girl with her hair in two pigtails, wearing a pink tank top. In the middle is a white girl with long blonde braids, wearing a white t-shirt. On the right is a young boy with curly hair, wearing a yellow long-sleeved shirt. They are in a classroom-like setting with other children and colorful toys visible in the background. A teal circle is overlaid on the top left, and a teal bar is at the bottom.

WICHITA  
COLLECTIVE  
IMPACT

Wichita Collective Impact

# Mission & Vision

## Our Mission

Wichita Collective Impact connects people, organizations, and resources to improve Kindergarten Readiness and 3rd grade reading proficiency to increase economic prosperity in the 67214 ZIP code.

## Our Vision

To build a future where every child in our communities has the foundation to thrive academically and economically, driven by collaborative efforts, innovative programs, and evidence-based solutions.

# Guiding Principles

- **Built by Trust:** We develop trust through collaboration and partnerships to align resources for sustainable success
- **Focused on Community:** We commit to empowering community voices and prioritizing community needs
- **Informed by Data:** We will use data-driven decision making as well as storytelling to inform and strengthen WCI efforts and initiatives
- **Committed to Dignity:** WCI will focus on opportunities and growth, with all efforts and storytelling focused on dignity and hope through asset-based language
- **Promoters of Positivity:** We will celebrate wins, efforts, advances, and other work by the collective and community
- **Aligned for Impact:** We will align our strategies, resources, and outcomes for greater impact

# Collective Impact vs. Other Efforts

A Collective Impact approach brings together organizations and people who are already doing the good work to collectively use their resources to achieve better outcomes.

**Disorder & Confusion**  
Limited Impact

**Individual Impact**  
In Isolation

**Coordinated Impact**  
With Alignment

**Collective Impact**  
With Collaborative Action

# Five Conditions of Collective Impact

**Mutual  
Activities**

**Common  
Agenda**

**Shared  
Measurement**

**Backbone  
Support**

**Continuous  
Communication**

# Local Organizations Working Together

# Wichita Collective Impact Partners

# Working Together as a Community

Organizations across the community are working together to align with USD 259 goals.  
(USD 259 goal updates are incorporated into WCI goals as available)

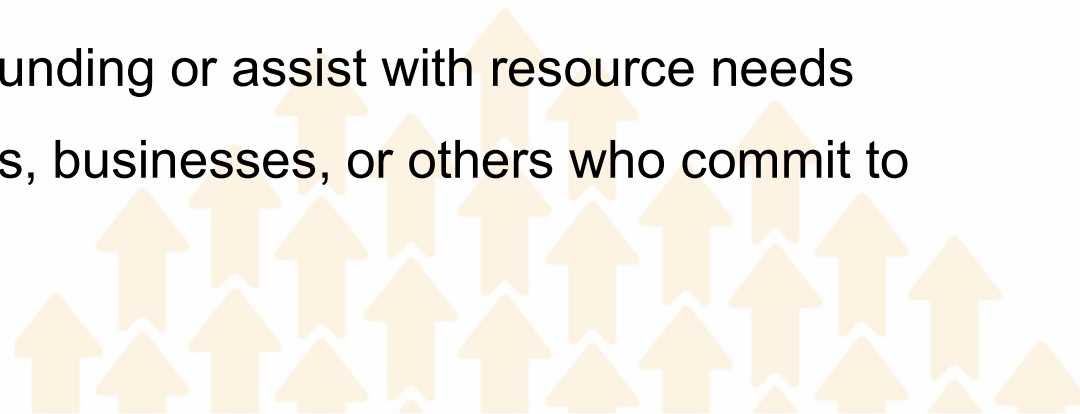

**-3.5%**

Decrease the percentage of students  
below benchmark on 3rd grade  
aReading.  
(from 56.5% to 53%)

# Partnership Types and Structure

- **Data Partners** – provide access to relevant datasets, information sources, and data infrastructure
- **Program Partners** – Community organizations that are willing to align programming efforts with USD 259 and WCI goals
- **Community Partners** – Community organizations that align with the overarching work and provide critical resources
- **Philanthropy Partners** – Provide funding or assist with resource needs
- **Statement of Support** – Individuals, businesses, or others who commit to support WCI efforts

# Benefits of Partnership

- **Collaborative Success**
- **Community Impact**
- **Access to Resources**
- **Data-Driven Decision Making**
- **Positive Community Engagement**

# Why Are We Intervening?

## The importance of early milestones

# Critical Pathways within Literacy

Kindergarten  
Readiness

3<sup>rd</sup> Grade  
Reading

# Why Kindergarten Readiness

- **The Risk Gap Starts Early**

- 50% of risk gaps already exist at kindergarten entry (Annie E. Casey Foundation, 2021)
- Risk factors include:
  - Lower resource access
  - Non-English primary language
  - Parental education level (American Academy of Pediatrics, 2019)
- **Risk gaps widen during first 4 years of school** (American Academy of Pediatrics, 2019)

# Why 3<sup>rd</sup> Grade Literacy

- Kindergarten readiness scores *directly predict* 3<sup>rd</sup> grade success (Applied Survey Research, 2017)
- Students who meet grade level standards in 3<sup>rd</sup> grade are less likely to struggle in 4<sup>th</sup> grade and beyond (Stanovich, 2009)
  - 4<sup>th</sup> grade marks the transition between learning to read and reading to learn
  - Students who achieve grade-level literacy standards by 3<sup>rd</sup> grade are better equipped to succeed in future learning in reading, math, social studies, science, and beyond

# Impact of Missing Key Milestones

Children who are not reading at grade level by the end of third grade are **four times less likely** to graduate from high school.

Children who are **both under-resourced AND not reading** at grade level by the end of third grade are **13 times less likely** to graduate from high school.

# Future Implications of Low Literacy

- **Economic and Workforce Development**
  - Lower likelihood of being full-time employed by age 30
  - More likely to be in low-skilled or semi-skilled roles
- **Health and Well-Being**
  - Worse health outcomes for adults with low literacy
    - Affects both physical and mental health
    - Higher incidence of chronic illness
  - Children of low-literacy adults also have worse health outcomes

**Where Are We Investing?**  
**67214 Zip Code**

# Why 67214?

Under-resourced, disinvested communities result in disparities in income, employment, high school attainment, and access to healthcare and health coverage in the 67214 Zip Code

- **38%** of households below the poverty level
- **55%** employment (ages 16+)
- **24%** did not complete high school (ages 25+)
- **33%** of people 5+ speak a language other than English at home

Partnering for data-driven results

# Summer Programs

## Summer 2023

- Average scores increased on every literacy measure across all grades
- 94% of students showed improvement

## Summer 2024

- 90% of students improved or maintained their literacy measures
- 80% of enrolled students were retained through the entire summer program

# Students. Together. Afterschool. Reading Program (S.T.A.R)

## STAR— Students Together Afterschool Reading

**WHO:** Spaght 3rd Graders

**DATE:** Starts September 9th, Tuesdays  
Wednesdays & Thursdays

**TIME:** 4:10PM –5:15PM

**LOCATION:** Spaght Magnet Elementary

The STAR Program is designed for 3rd graders to help them shine on their literacy journey! Each day, students enjoy:

- ENGAGING READING EXERCISES
- FUN LITERACY ACTIVITIES
- A QUICK GAME TO KEEP THINGS LIVELY
- A HEALTHY SNACK TO REFUEL

Our mission is to support students in reaching 3rd grade State Reading Standards, as well as building strong foundations for future success in school—and in life!

★ Let your child's reading skills shine with STAR! ★

# Kindergarten Readiness

## KINDERGARTEN READY

WICHITA  
COLLECTIVE  
IMPACT

Preparing children aged 2-5 for kindergarten through the lens of the Kansas Early Learning Standards involves fostering a range of skills across several developmental domains. Here are the top 10 skills:

- 1 SOCIAL SKILLS:** Interact positively with peers and adults including sharing, taking turns, and cooperating in group settings.
- 2 EMOTIONAL REGULATION:** Recognizing and managing their emotions and expressing feelings appropriately.
- 3 LANGUAGE DEVELOPMENT:** Expanding vocabulary and effectively communicating needs and ideas.
- 4 EARLY LITERACY SKILLS:** Recognizing letters and sounds and engaging with books through storytelling and discussions.
- 5 MATHEMATICAL THINKING:** Identifying numbers, shapes, and patterns.
- 6 CRITICAL THINKING AND PROBLEM-SOLVING:** Asking questions, exploring, and finding solutions through hands-on activities and play.
- 7 FINE MOTOR SKILLS:** Developing hand-eye coordination through activities like drawing, cutting, and manipulating small objects.
- 8 GROSS MOTOR SKILLS:** Participating in physical activities that enhance balance, coordination, and overall physical fitness, such as running, jumping, and climbing.
- 9 CREATIVE EXPRESSION:** Engaging in art, music, and imaginative play, which allows children to express themselves and think creatively.
- 10 UNDERSTANDING OF HEALTH AND SAFETY:** Learning basic hygiene practices (like handwashing) and safety rules, promoting awareness of personal health and well-being.

These skills align with the Kansas Early Learning Standards and help create a strong foundation for children as they transition into the kindergarten environment.

# Discussion Question

Which parts of the programs we talked about seem most helpful for improving literacy based on the data you saw?

Are there any parts that don't seem to match the needs as well?

# Discussion Question

How do you think our community activities affect people's trust in our organization, especially when it comes to helping with literacy?

What could make that trust stronger or weaker?

## Discussion Question #1

What are your thoughts on how well these statements align with or address the problem as you understand it?

**5-8 minute break**

## What we heard last session: Family Centered Approach

Supporting parents and caregivers as children's first teachers, rather than focusing only on direct child instruction.

- Build parent confidence in helping with reading at home
- Provide practical tools that fit into daily routines
- Recognize time and resource constraints of working families
- Empower families with realistic strategies they can actually use

## What we heard last session: Cultural Responsiveness and Accessibility

Ensuring literacy programming reflects our community's diversity and fits real family life.

- Include books and materials that represent diverse backgrounds and languages
- Offer activities during car rides, meal prep, bedtime - not separate time slots
- Recognize different learning styles and family structures
- Make programs accessible regardless of work schedules or transportation

FJ1

Formatting...

Fuller, Jamie-Lee, 2025-07-18T20:45:46.095

## Discussion Question

What can we do to help parents feel more prepared and supported in helping their kids with reading, especially when life is busy or stressful?

## What we heard last session: Community Partnership Model

Schools and community organizations working together strategically, not separately.

- Leverage school expertise and community connections
- Create seamless support systems for families
- Extend school-based learning into neighborhood settings
- Avoid duplication by coordinating efforts across organizations

# Discussion Questions

What would effective community-school partnerships actually look like?

Are you aware of existing programs already doing this?

## **What we heard last session:** **Building on Community Assets**

Identifying and strengthening existing community strengths rather than starting from scratch.

- Connect families to share strategies and provide mutual support
- Recognize parents already care deeply about children's education
- Build on informal networks and respected community leaders
- Pair grassroots knowledge with adequate institutional resources

# Discussion Questions

What are the best ways to connect parents so they can support each other with their children's literacy?

How can we make sure families know about and can access available resources?

# Discussion Questions

Looking at these four areas, which ones resonate most with your own experience?

Are there perspectives or solutions do you think we might have missed in our earlier conversations?

**“If you want  
different results,  
do not do the  
same things.”**

**Albert Einstein**

## THE STATE OF ALICE IN KANSAS

 [2025 REPORT](#)  [PRINT/SAVE THIS PAGE](#)  [DATA SHEET](#)

### Introducing ALICE

- Key Findings
- The Cost of Basics
- Costs Over Time
- Demographics
- ALICE in the Labor Force
- Trends in Hardship
- County Reports

### Introducing ALICE

In 2023, according to the Federal Poverty Level (FPL), 12% of Kansas households were financially insecure. Yet this measure failed to account for an additional 26% of households that were also experiencing financial hardship. These households are **ALICE: Asset Limited, Income Constrained, Employed** – with income above the FPL, but not enough to afford basic expenses in the county where they live.

Between ALICE households and those living in poverty, **an estimated 38% of households in Kansas were below the ALICE Threshold in 2023.** Households below the Threshold are forced to make impossible choices – like deciding whether to pay for utilities or a car repair, whether to buy food or fill a prescription.

# UPWARD MOBILITY

The ability to **stabilize, thrive** and make choices over time, without losing connection to culture, community, or self.

We want every Kansan to have the **opportunity to succeed**, regardless of their starting point in life.

# “I WISH FOR...”

“Anyone struggling to have access to a good job and food.”

“Everyone to have access to affordable education.”

“My friend to have affordable housing!”

“Less struggles for single moms.”

“Barriers to jobs to be removed. Not every job needs a degree.”

A vibrant sunset scene over a vast field of sunflowers. The sun is low on the horizon, casting a warm orange glow across the sky and the tops of the flowers. The sky is filled with dramatic, dark clouds. A yellow outline of the state of Kansas is superimposed over the image, framing the central text.

# Economic Mobility in Sedgwick County: *Reframing Possibility*

## *Defining Economic Mobility:*

**“Movement toward stability, opportunity,  
and choice with dignity”**

- Nearly **1 in 3** Sedgwick County households fall below the ALICE threshold
- Middle-skill workforce roles offer the strongest mobility lift
- Zip code remains a strong predictor of life outcomes
- Urban Institute Upward Mobility Framework + Opportunity Insights

**CHIP Integration: Embed mobility questions into every health priority**

## ***Our Regional Work: From Vision to Activation***

- 10-county regional Economic Mobility Plan
- Led by The Partnership | Funded by Kansas Health Foundation
- 40+ partners, stakeholder sessions, lived-experience input

### ***Three Priority Areas***

**Workforce Pathways**

**Policy & Systems**

**Data & Measurement**

### **CHIP Integration:**

- Strengthen system navigation
- Elevate transportation & childcare as cross-cutting health supports

## *Aligning Regional Efforts: Partners, Data & CHIP's Role*

- Shared Data Model: Opportunity Insights + ALICE Data
- Common Themes: shared priorities, shared data, stigma-free framing, neighborhood-based access

### *Partners*

### **CHIP Integration:**

- Align mobility indicators with CHIP metrics
- Center dignity and lived experience in goal design

Mobility is a *health strategy.*

## 2025 CHNA Implementation Strategy

# CHNA and implementation strategy cycle

Strategy focus areas

## 2025 CHNA Implementation Strategy

### Access to care

*"[To me, health means] everyone has **access** to the health and mental healthcare they need, with no waiting around on a list because they live in poverty, can't afford it, or because they have an insurance the providers aren't accepting." – Participant, Community Listening Session*

Focus area	Strategy	Description
Access to health insurance	Assist patients with eligibility and applications for public health insurance programs.	Financial counselors assist referred patients with eligibility determination and applications.
Access to affordable medications	Provide free or reduced-cost medications for qualifying uninsured and underinsured individuals.	Through innovative stewardship of the pharmaceutical supply chain, Dispensary of Hope collects and distributes millions of dollars of pharmaceuticals annually to pharmacies and safety-net clinics to dispense to low income, chronically ill patients.
Access to primary care	Increase primary care connections for individuals who are uninsured or receive Medicaid.	Connecting uninsured and Medicaid patients to primary care and ensuring they have a medical home.

## 2025 CHNA Implementation Strategy

### Chronic conditions

*"Health disparities are preventable. Unequal access to health resources can lead to higher rates of **disease**, disability, even death."*  
— Participant, Key Informant Interview

Focus area	Strategy	Description
Heart disease	Coordinate care for high-risk heart disease patients through Transitional Care Clinic programs.	Provides short-term healthcare to connect patients to primary care doctors. Also provides programs for patients with chronic illness to reduce ER readmission.
Cancer (Lung)	Provide lung screenings for first responders through the Firefighter Screening Initiative.	Increase preventative lung screenings and support services for high-risk groups.
Cancer (Breast)	Provide breast screenings across the community via HOPE Mobile Mammography.	Increase access to preventative breast cancer screenings among rural and high-SVI areas, and areas that may lack transportation.

## 2025 CHNA Implementation Strategy

### Social determinants of health

*"To make progress on **social determinants of health**, we have to get out of silos — past politics and competition — to create collaboration."*  
— Participant, Key Informant Interview

Focus area	Strategy	Description
Transportation	Provide non-emergency rides to medical appointments for individuals experiencing barriers to reliable transportation.	Patients are referred to transportation team if they are needing to be transferred to another facility and without a ride.
Food security	Support food security efforts of community partners through cash and in-kind donations.	Cash donation, associate volunteer, and food drives
Community resources	Connect patients and community members with identified social needs to local community resources.	Through FindHelp's <a href="#">Neighborhood Resource</a> , connect patients to community-based resources such as food pantries, housing and transit, financial assistance (e.g., rent, utilities) and safety-net programs.

## 2025 CHNA Implementation Strategy

Full CHNA and IS reports available at:

### Community Health Needs Assessments

To provide input on the Community Health Needs Assessment or receive a hard copy of any CHNA, please click here.

Every three years, non-profit hospitals, including all Ascension hospitals, are required by law to perform community health needs assessments (CHNAs) to evaluate the overall health status of the communities being served. Input from persons who represent the broad interest of these communities are sought and considered during the assessment. This community-driven approach aligns Ascension's commitment to offer programs designed to address the health needs of a community, with special attention to persons who are underserved and vulnerable. Developed in collaboration with local community health partners and stakeholders, the most recent CHNA reports and implementation strategies are listed below.

# Healthcare Access

Lety Dominguez, LPN  
Guadalupe Clinic

SEDGWICK COUNTY  
**Health Department**

# Welcome to Guadalupe Clinic

Providing health care to the uninsured and those affected by poverty in Wichita and surrounding areas since 1985.

# OUR MISSION

As missionary disciples of Christ, and with other people of good will, Guadalupe Clinic works to provide access to quality health care for people in need.

# OUR HISTORY

Guadalupe Health Station was created in 1985 by a group of nurses providing health education and referrals as needed.

Founding Nurses

# Guadalupe Clinic

**Mission:**

Provide compassionate, comprehensive medical care to uninsured and underinsured individuals, regardless of ability to pay.

**Who We Serve:**

Primarily low-income adults in Wichita and surrounding communities who fall through the gaps of traditional healthcare systems.

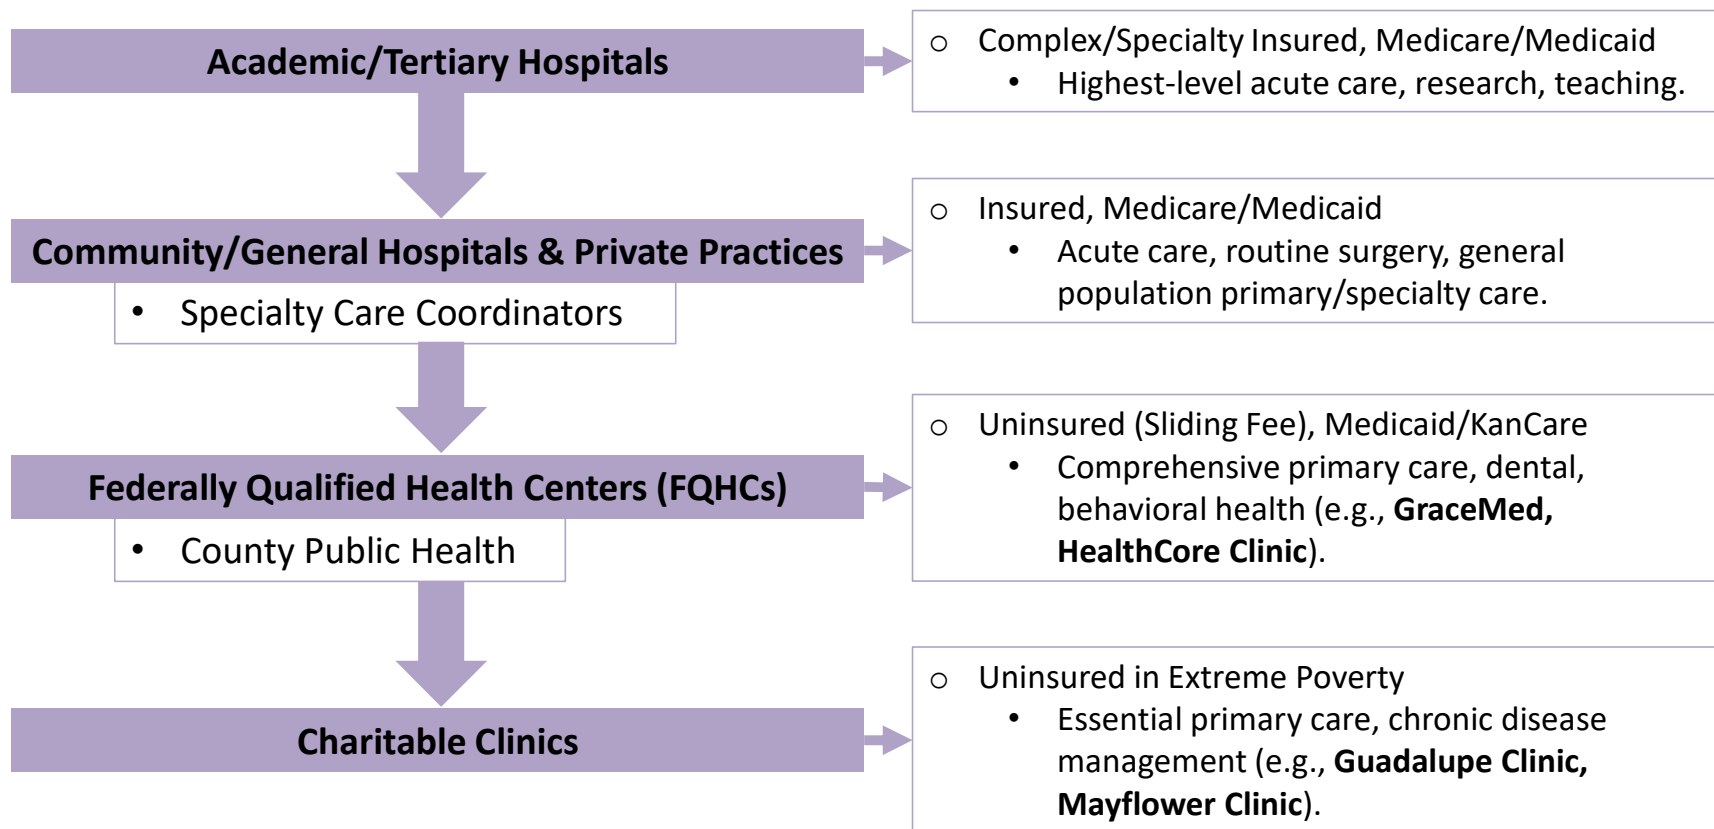

**Care Model:**

Fully volunteer-driven medical staff, enabling free health care, high-impact delivery of services.

**Scope of Services:**

- Primary care
- Chronic disease management
- Preventive screenings
- Immunizations
- Specialty referrals
- Wellness education

# TIERED HEALTHCARE ACCESS

# GUADALUPE CLINIC & CHIP HEALTH

- Expanding Access to Primary Care
- Serve as a medical home for uninsured adults.
- Provide ongoing, relationship-based care to reduce ER dependence.
- Walk-in appointments prevent unnecessary emergency visits.

# Chronic Disease Management

- Focus on high-prevalence conditions: diabetes, hypertension, heart disease.
- Support long-term management and medication assistance.
- Specialized help from Jackie (diabetes educator).
- Provide patients with needed medications and tools.

# Preventive Health & Wellness

- Offer immunizations\* (flu), screenings, and health education.
- Empower patients with tools, knowledge, and supportive partnerships:
  - JayDoc Clinic
  - Jackie (diabetes education)
  - Joan (nutrition guidance)
- Provide glucose monitors to patients.

\*Currently, flu vaccines are provided.

# Addressing Social Determinants of Health

- Identify barriers like transportation, language, and food insecurity.
- Nelly leads efforts in patient resource navigation and culturally competent care.
- Offer bilingual communication (English/Spanish).
- Provide Lyft rides for access to care.

# Reducing Health Disparities

- Prioritize underserved and minority populations affected by poor health outcomes.
- Deliver equitable, culturally sensitive care via bilingual, diverse staff.
- Shape programs to meet unique community needs.

# PARTNERSHIPS & OPPORTUNITIES

## Collaborations Supporting CHIP Priorities

- Local hospitals and health systems: coordinate referrals, reduce preventable ER visits.
- Community organizations: address food and transportation needs.
- Public health agencies: align efforts with county health initiatives.
- Educational institutions & volunteer networks: engage medical students, volunteers, and JayDoc Clinic.
- Specialty care partners: Project Access and others offer donated/low-cost specialty services.

## Possible Opportunities

- Dental care expansion
- Community extension partnerships

Health Department

# Goal Creation Worksheet Questions

In setting goals, consider the following:

Draft Goal #1:		
Current and Desired State		
What is the current state?	What is the desired state (possible)?	How do we get to the desired state?
<p>Answer the following:</p> <ol style="list-style-type: none"> <li>1. What is currently happening in the community around this goal?</li> <li>2. Who is doing the work?</li> <li>3. What programs are using evidence-based or promising practices?</li> </ol>	<p>Answer the following:</p> <ol style="list-style-type: none"> <li>1. How can the CHIP support and enhance current work to create an impact in the next three years?</li> <li>2. What organizations need to be at the table that are not currently involved?</li> <li>3. What are the priority populations?</li> <li>4. If funding becomes available, what is possible?</li> </ol>	<p>Answer the following:</p> <ol style="list-style-type: none"> <li>1. What are the barriers that prevent us from achieving the desired state?</li> <li>2. What needs to happen to bridge the gap between the current and desired state? For example, is the current state due to lack of resources, personnel, coordination, knowledge, skill, attitude, or practices?</li> </ol>

SEDGWICK COUNTY  
Health Department

# Next Steps

1. Next, we will discuss the Health Education Lens
2. During lunch, move to your assigned Health Priority table.
3. After lunch, use **Goal Creation Worksheet** at your table
  - a. Introductions: “What does your organization value that is associated with this Health Priority?”
  - b. Identify spokesperson
  - c. Identify people for health education lens
  - d. Draft 2-3 goals per Health Priority

SEDGWICK COUNTY  
Health Department

# Additional Notes

- **Facilitators** will move the discussion along & ensure time is monitored
- **Notetakers** will document discussion
- **Online coordinators** will monitor and speak for the online participants
- **Ground rules:** Ideas welcome, respect, silence phones
- Tables should start summarizing at 1:20.
- Report out at 1:30.

SEDGWICK COUNTY  
**Health Department**

# 2020-2022 CHIP Goal #1

## CHIP 2020-2022 - Goal #1

### INCREASE COMMUNITY KNOWLEDGE OF HEALTH-RELATED SERVICES AND RESOURCES THROUGH EDUCATION

#### OUTCOME #1

By 2023, increase calls to 211 about mental health, healthcare, or substance misuse from priority ZIP Codes by 20%.

#### OUTCOME #2

By 2023, increase participation in evidence-based prevention and other programs by 50%.

# 2020-2022 CHIP Goal #3

## CHIP 2020-2022 - Goal #3

### IMPROVE REFERRAL NETWORK AND SERVICE INTEGRATION BETWEEN SEDGWICK COUNTY PARTNERS

#### — OUTCOME #1 —

By 2023, increase programs sending/receiving referrals on IRIS by 50%

#### — OUTCOME #2 —

By 2023, increase referrals between programs on IRIS by 50%

#### — OUTCOME #3 —

By 2023, increase super implementers by 8

#### — OUTCOME #4 —

In 2023, increase the number of certified medication assisted treatment (MAT) providers in Sedgwick County by 20%.

SEDGWICK COUNTY  
Health Department

# November 2022 CHIP Development Meeting: Salud + Bienestar Presentation

## What Hispanics/Latinos are saying?

Information is not getting to the community

It's difficult to navigate the system- I like in person information.

Only one navigator at my clinic

SEDGWICK COUNTY  
Health Department

# 2023-2025 CHIP Healthcare Access Workgroup

## GOAL

**INCREASE COMMUNITY KNOWLEDGE OF SERVICES AND RESOURCES  
THROUGH EDUCATION AND CARE COORDINATION**

## OUTCOMES

By 2025

### Community Health Workers

Increase the number of certified Community Health Workers (CHWs) by 20 to enhance community access to information about available resources.

By 2025

### Limited English Proficiency

Increase the number of agencies who have a process to serve residents in 67207, 67210, and 67211 who have Limited English Proficiency by enhancing the knowledge of language and interpretation services available

SEDGWICK COUNTY  
Health Department

# 2023-2025 CHIP: Education Workgroup

## GOAL

IMPROVE COMMUNITY AWARENESS OF EDUCATIONAL OPPORTUNITIES

## Activities

Collaborated with Wichita Transit to address transportation barriers for parents/guardians who want to continue their education

Distributed flyers for literacy initiatives, including 1,000 Books Before Kindergarten and summer reading programs, to increase participation

SEDGWICK COUNTY  
Health Department

# 2023-2025 CHIP Food Access Workgroup

## GOALS

**1**

IMPROVE COORDINATION OF IMMEDIATE ACCESS TO FOOD

**2**

EXPLORE LONG-TERM SOLUTIONS TO ADDRESS FOOD ACCESS FOR LOW-INCOME POPULATIONS

## OUTCOMES

By 2025

**1**

- Sustain and connect more households to identifiable food sources and food assistance resources in high priority ZIP Codes that receive food assistance by increasing the percentage of households on SNAP in ZIP Codes 67210, 67213, 67214, and 67218 by 2%

Improve coordination among community resources/partners within the food ecosystem by 20 %.

By 2025

**2**

- Increase the number of individuals who report increased knowledge, comfort with advocacy, and empowerment regarding access to services and eligibility among people accessing food opportunities

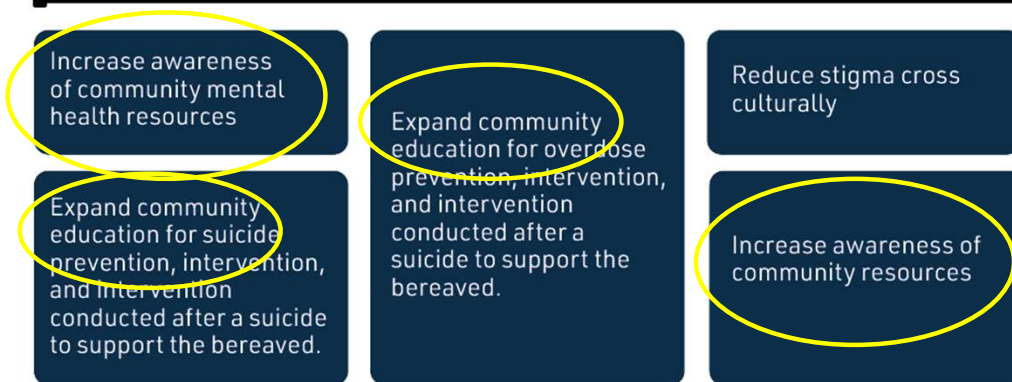

# 2023-2025 CHIP Mental Health Workgroup

## OUTCOMES

By 2025

## STRATEGIES:

SEDGWICK COUNTY  
Health Department

# Proposal for Health Education Lens

SEDGWICK COUNTY  
**Health Department**

# Proposal to Incorporate a Health Education Lens into the 2026 CHIP

- Purpose of the lens: Coordinated approach over all Health Priorities
- 1-2 members from each workgroup are identified to focus on health education
  - Health education classes
  - Knowledge about resources
- Quarterly meetings with CHIP co-chairs for coordination

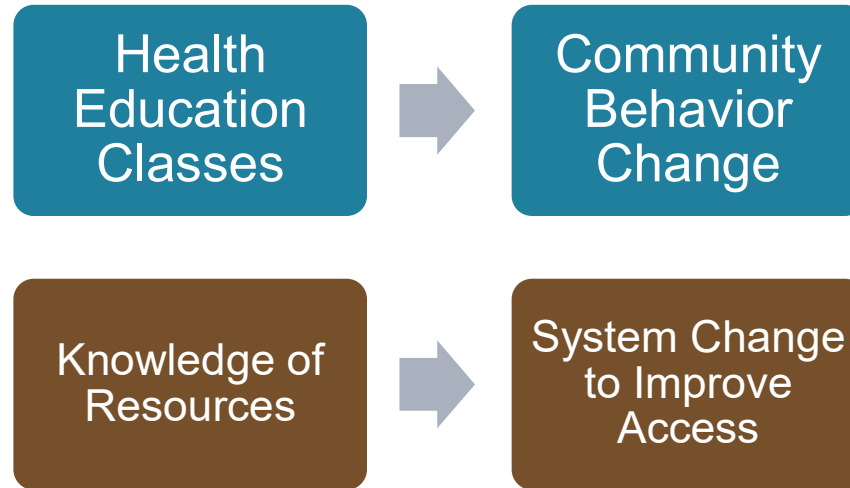

SEDGWICK COUNTY
