- Ideal for students grades 9-12, as well as school staff and parents
- Topics Covered
  - STI & HIV
  - Transmission
  - Symptoms
  - Prevention
  - Local Statistics/Impact

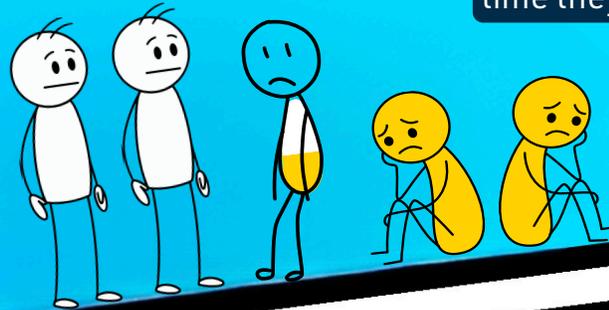

## Adult Education

- We also offer presentations and education for adult groups.
- Contact us for more information

SEDGWICK COUNTY  
**Health Department**

About half of high school students reported not using a condom the last time they had sex.

*Youth Risk Behavior Survey (YRBSS), United States, CDC, 2023*

Nearly half of reported new chlamydia, gonorrhea, and syphilis cases were among 15-24-year-olds!

**50%**
