## Patient Comments

I am living life now and not just existing. My case manager has helped me beyond words.

I've become more independent and self-sufficient.

I am growing and becoming more strong and more able to handle my crisis days. I'm more able to handle my emotions and thoughts better than in the past.

Comcare has been a huge part of my every day life. The services are amazing and truly encourage others to participate who have any mental concerns.
