Dear Applicant,

The Sedgwick County Developmental Disability Organization (SCDDO) is your single point of access to long-term services and supports for individuals with intellectual and developmental disabilities (I/DD). SCDDO provides information, referrals, and quality oversight of I/DD services and support in Sedgwick County.

A Service Access Specialist will reach out to you to discuss your application, answer any questions you have, and determine eligibility. This person will be your main point of contact as you move through the intake and eligibility process. They can also answer questions you may have about local service options.

Our primary goal is to help you make informed choices, so please feel free to reach out to us with any questions you may have. We will be sharing a lot of information with you during the intake process, and this can easily become overwhelming.

In the meantime, please do not hesitate to call SCDDO at (316) 660-7630 and ask to speak with a Service Access Specialist if you would like to talk to someone.

I/DD ELIGIBILITY

I/DD Eligibility

What is an Intellectual Disability (ID)? Intellectual disability refers to substantial limitations in present functioning that has manifested during the period from birth to age 18 years.

ID is characterized by significantly sub-average intellectual functioning that exists concurrently with deficits in adaptive behavior.

This includes related limitations in two or more of the following applicable adaptive skill areas:

Communication	Self Direction
Self-Care	Health and Safety
Home living	Functional academics
Social Skills	Leisure
Community use	Work

In order to be eligible for services an individual must have a diagnosis of Intellectual Disability. The level of disability (mild, moderate, severe, or profound) must also be given.

This diagnosis must come from a healthcare professional that is licensed to make a *DSM-V diagnosis. For more information on who can do this within the community please contact SCDDO at 316-660-7652.

*The DSM-V is an acronym for the fourth edition of the Diagnostic and Statistical Manual of Mental Disorders. Each disorder or diagnosis is given a numerical code.

What is a Developmental Disability (DD)? Developmental disabilities refers to a condition such as autism, cerebral palsy, epilepsy, or another similar physical or mental impairment that is evidenced by a severe, chronic disability which:

- 1) Can be attributed to a mental or physical impairment or a combination of both, AND
- 2) Is manifested before the age of 22, AND
- 3) Is likely to continue indefinitely, AND
- 4) Results in substantial functional limitations in three or more of the following areas of life functioning:
 - Self-care,
 - Understanding and the use of language,
 - Learning and adapting
 - Mobility
 - Self-direction in setting goals and undertaking activities to accomplish those goals
 - Living independently
 - Economic self-sufficiency

To further clarify substantial functional limitations, the SCDDO may, but is not required to use the Eligibility Determination Instrument (EDI) or other professionally accepted, standardized methods of functional assessment.

Children Under the Age of 6 with I/DD

Children under 6 may be eligible if there is a severe, chronic disability which:

- 1) Are attributed to a mental/physical impairment AND Are likely to continue indefinitely, AND
- 2) Results in at least 3 developmental delays as measured by qualified professionals, AND
- 3) Reflects a need for a combination and sequence of special, interdisciplinary or generic care, treatment, or other services which are lifelong or extended in duration and are individually planned and coordinated, AND
- 4) Does not include individuals who are solely severely emotionally disturbed or seriously and persistently mentally ill.

In certain circumstances, however, you may request that the denial be reviewed. If the original denial of access to the medical records was made by a licensed health care provider as allowed by law, another licensed healthcare professional chosen by Sedgwick County will review your request and the denial. The person conducting the review will not be the person who denied your request. Sedgwick County will comply with the outcome of the review. You will be advised in writing of this reviewing official's decision.

Request an Amendment of Your Records. If you feel that health information Sedgwick County has about you is incorrect or incomplete, you may ask us to correct or supplement the information. You have the right to request an amendment for as long as the information is kept by or for Sedgwick County. To request an amendment, your request must be made in writing and submitted to the relevant Privacy Officer listed below. In addition, you must provide a reason that supports your request.

Sedgwick County may deny your request for an amendment if it is not in writing or does not include a reason to support the request. If your request for an amendment is denied, you have the right to file a statement of disagreement that will be included with any future disclosures of your health information. Sedgwick County may deny your request if you ask us to amend information that:

- Was not created by Sedgwick County, unless the person or entity that created the information is no longer available to make the amendment;
- Is not part of the health information kept by or for Sedgwick County; or
- Is not part of the information which you would be permitted to inspect and copy, or is accurate and complete.

Request an Accounting of Disclosures. You have the right to request, in certain circumstances, an “accounting of disclosures.” An “accounting” is a list of the disclosures Sedgwick County has regarding your health information. An “accounting” will not include:

- Internal uses of information for treatment, payment, or operations;
- Disclosures made to you or made at your request; or
- Disclosures made to family members or friends in the course of providing care.

To request this list or “accounting” of disclosures, you must submit your request in writing to the relevant Sedgwick County Privacy Officer listed below. Your request must state a time period which may not be longer than past six years from the date of your request. Your request should indicate in what form you want the list (e.g., on paper or electronically.) Sedgwick County may charge you for the costs of providing the list. We will notify you of the costs involved and you may choose to withdraw or modify your request at that time before any costs are incurred.

Request Restrictions. You have the right to request a restriction on the health information that Sedgwick County uses or discloses about you for treatment, payment or healthcare operations. You also have the right to request a limit on the health information Sedgwick County discloses about you to someone who is involved in your care or the payment for your care (i.e., a family member or friend). For example, you could ask that:

- Sedgwick County not use or disclose information about a procedure you had done; or
- Sedgwick County not share specific information with certain people.

Sedgwick County is not required to agree to your request. Only the Privacy Officer can agree to your request. If the Privacy Officer does agree, Sedgwick County will notify you in writing and comply with your request. If Sedgwick County agrees to a restriction we may:

- Terminate any restriction with or without your agreement; or
- Inform you that Sedgwick County is terminating our agreement to the restriction.

To request restrictions, you must make your request in writing to the relevant Privacy Officer listed below. In your request, you must state:

- What information you want to limit;
- Whether you want to limit our use, disclosure or both; and

- To whom you want the limits to apply (e.g., disclosures to your spouse).

You may terminate restrictions in writing directed to the relevant Privacy Officer listed below by stating the specific restriction(s) that you wish to be terminated.

Request Confidential Communications. You have the right to request that Sedgwick County communicates with you about medical matters in a certain way or at a certain location. For example, you can ask that Sedgwick County only contact you at work or by mail. To request confidential communications, you must make your request in writing to the relevant Privacy Officer listed below. Sedgwick County will not ask you the reason for your request. Sedgwick County may ask you for clarification so we can understand your request. You are not required to give an explanation. Sedgwick County will accommodate all reasonable requests. Your request must specify how or where you wish to be contacted.

Receive Notice of Any Breach of Your Health Information. If your health information is acquired, accessed, used, or disclosed in a manner not permitted under the HIPAA Rules which compromises the security or privacy of the protected health information, you have a right to receive notice from Sedgwick County of the breach. The term “breach” does not include:

- Any unintentional acquisition, access, or use of your health information by a member of Sedgwick County’s workforce or a person acting under the authority of Sedgwick County or its business associate, if such acquisition, access, or use was made in good faith and within the scope of authority and does not result in further use or disclosure in a manner not permitted under the HIPAA Rules.
- Any inadvertent disclosure by a person who is authorized to access your health information at Sedgwick County or its business associate to another person authorized to access protected health information at Sedgwick County or its business associate, or organized health care arrangement in which Sedgwick County participates, and the information received as a result of such disclosure is not further used or disclosed in a manner not permitted under the HIPAA Rules.
- A disclosure of protected health information where Sedgwick County or its business associate has a good faith belief that an unauthorized person to whom the disclosure was made would not reasonably have been able to retain such information.

Regarding an Electronic Health Information Exchange. Sedgwick County may participate in electronic health information technology or HIT. This technology allows a provider or a health plan to make a single request through a health information organization or HIO to obtain electronic records for a specific patient from other HIT participants for purposes of treatment, payment, or health care operations. HIOs are required to use appropriate safeguards to prevent unauthorized uses and disclosures.

You have two options with respect to HIT. First, you may permit authorized individuals to access your electronic health information through an HIO. If you choose this option, you do not have to do anything.

Second, you may restrict access to **all** of your information through an HIO (except as required by law). If you wish to restrict access, you must submit the required information either online at

<http://www.KanHIT.org> or by completing and mailing a form. This form is available at <http://www.KanHIT.org>. You cannot restrict access to certain information only; your choice is to permit or restrict access to all of your information.

If you have questions regarding HIT or HIOs, please visit <http://www.KanHIT.org> for additional information.

If you receive health care services in a state other than Kansas, different rules may apply regarding restrictions on access to your electronic health information. Please communicate directly with your out-of-state health care provider regarding those rules.

Restrict Disclosure of Your Health Information to Health Plans. You have the right to request Sedgwick County and Sedgwick County will agree to the request to not disclose your health information to a health plan if:

- The disclosure is for the purpose of carrying out payment or health care operations and is not otherwise required by law; and
- The health information pertains solely to a health care item or service for which you, or a person other than the health plan on behalf of you, has paid Sedgwick County in full.

Receive your Health Information in Electronic Form. If Sedgwick County maintains your health information in one or more designated record sets electronically and if you request an electronic copy of such information, Sedgwick County must provide you with access to your health information in the electronic form and format requested by the you, if it is readily producible in such form and format; or, if not, in a readable electronic form and format as agreed to by the Sedgwick County and you.

Receive A Paper Copy of This Notice. You have the right to a paper copy of this Notice. You may ask Sedgwick County to give you a copy of this Notice at any time. Even if you have agreed to receive this Notice electronically, you are still entitled to a paper copy of this Notice. To obtain a paper copy of this Notice you may contact a Sedgwick County Privacy Officer listed below. You may also obtain a copy of this Notice at our website, www.sedgwickcounty.org.

Sedgwick County may disclose health information about you to an entity assisting in disaster relief effort so that your family can

be notified about your condition, status and location. The amount of information disclosed in these situations will depend on that person's particular involvement in your care. For example, a research project may study the effects of early access to health care during pregnancy. All research projects are subject to a special approval process. Before we use disclosure of health information for research, the project must be approved through the research approval process.

include, for example, audits, investigations, inspections, and licensure. These activities are necessary for the government to monitor the health care system, government programs, licensing functions, and compliance with civil rights laws.

Lawsuits and Disputes. If you are involved in a lawsuit or in a dispute, Sedgwick County may disclose health information about you in response to a court or administrative order. We may also disclose health information about you in response to a court or administrative order even if you are not involved in the lawsuit or dispute. Health information about you may be disclosed in response to a subpoena, discovery request, or other lawful process by someone else involved in the dispute, but only if efforts have been made to tell you about the request or to obtain an order protecting the information requested or as otherwise permitted by law. For records covered by 42 C.F.R. Part 2 please see “Substance Use Disorder” section of this Notice.

Substance Use Disorder Records. In addition to the privacy protections of the HIPAA Rules and the rights described in this Notice, the confidentiality of substance use disorder records are protected by another, more stringent federal law known as 42 C.F.R. Part 2 (Part 2). Part 2 provides heightened confidentiality of substance use disorder patient records (Part 2 Records). Sedgwick County’s COMCARE operates a Part 2 program. Sedgwick County may use and disclose your Part 2 Records in accordance with your consent to any person or category of persons identified or generally designated in your consent, such as your spouse or another family member, or your healthcare provider. Sedgwick County will share your health information with them as outlined in your consent.

- Central Registry or Withdrawal Management Program. Subject to obtaining your written consent, Sedgwick County may use and disclose your Part 2 Records to a central registry or to any withdrawal management or treatment program for the purposes of preventing multiple enrollments. We will obtain your authorization prior to disclosing your information for non-emergency treatment. We may also disclose your Part 2 Records to medical personnel of the Food and Drug Administration (FDA) who assert a reason to believe that your health may be threatened by an error in the manufacturer, labeling, or sale of a product under the FDA jurisdiction, and that your Part 2 records will be used for the exclusive purpose of notifying you or your physicians of potential danger.
- Research. Generally, Sedgwick County would first obtain your written consent for disclosures of your Part 2 Records for purposes of scientific research. Under certain circumstances, we may use and disclose your Part 2 Records without your consent for scientific research purposes to the

Under certain circumstances, Sedgwick County may use or disclose your Part 2 Records for purposes of the performance of certain program financial and management audits and evaluations. As an example, Sedgwick County may disclose your identifying information to any federal, state, or local government agency that provides financial assistance to the Part 2 program or is authorized by law to regulate the activities of Part 2 program or lawful holder of Part 2 records. - Public Health. Sedgwick County may disclose to a public health authority your Part 2 Records for public health purposes. However, the contents of the information from the Part 2 Records disclosed will be de-identified in accordance with the requirements of the HIPAA regulations, such that there will be no reasonable basis to believe that the information can be used to identify you.

A court order authorizing use or disclosure of your Part 2 Records must be accompanied by a subpoena or other similar legal mandate compelling disclosure before your Part 2 Records may be used or disclosed.

H. Applicability of other laws:

Depending on the services you receive from Sedgwick County, your sensitive information may also be protected by other federal and state laws. Where the more stringent law imposes additional restrictions and limitations on use or disclosure of such sensitive information that supersede that of HIPAA, Sedgwick County shall follow the more stringent laws as may be required by law. For example:

- Unlike HIPAA, 42 C.F.R. Part 2 requires written permission to share substance use disorder records protected by 42 CFR Part 2 for purposes of treatment, payment, and health care operations, except in limited situations. If you participate in Sedgwick County's COMCARE's Part 2 program, you must sign a consent form to share your records from Part 2 program for such operations.
- Another example would be where your health information includes Part 2 Records, we may not use or disclose them in civil, criminal, administrative or legislative proceedings against you, unless you provide written consent or we receive a court order and subpoena described in more detail in Section G of this Notice.

I. Other uses and disclosures; revoking previous permission to use or to disclose your health information; limitations imposed by more stringent laws; notice about redisclosures:

Other uses and disclosures of health information not covered by this Notice or the laws that apply to Sedgwick County will be made only with your written permission. The form may be located at this link: <https://www.sedgwickcounty.org/media/62626/authorization-for-use-or-disclosure-of-phi.pdf>.

To revoke any permission already given to Sedgwick County or permission given to us in the future, you must revoke that permission in writing by sending it to a Sedgwick County Privacy Officer listed below. If you revoke your permission, Sedgwick County will no longer use or disclose health information about you for the reasons covered by your written authorization. You understand that we are unable to take back any disclosures we have already made with your permission, and that we are required to retain our records of the care that we provided to you.

Please be aware that if your health information has been shared legally, either at your request or in a manner described above pursuant to federal and state law, it may be subject to redisclosure and no longer protected under federal and state law.

What should you do if you have a complaint concerning your medical records?

If you believe your privacy rights have been violated, including the privacy of your Part 2 Records, you may file a complaint with Sedgwick County or with the Secretary of the Department of Health and Human Services (DHHS.) To file a complaint with Sedgwick County or to receive additional information about how to file a complaint with the DHHS, contact the relevant Sedgwick County Privacy Officer listed below.
